## **About the Minnesota Office of Higher Education**

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency also serves as the state's clearinghouse for data, research and analysis on postsecondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program is the largest financial aid program administered by the Office of Higher Education, awarding more than \$198 million in need-based grants to Minnesota residents attending accredited institutions in Minnesota. The agency oversees tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Plan, licensing and early college awareness programs for youth.

# Introduction

---

The 2015 Minnesota Legislature enacted the Teacher Shortage Loan Forgiveness Program, effective August 1, 2015, [Minnesota Statutes 136A.1791](https://www.revisor.mn.gov/statutes/cite/136A.1791)<sup>1</sup>. The Minnesota Office of Higher Education (OHE) refers to the program as the Teacher Shortage Loan *Repayment* Program (TSLRP) to better align the program’s name to its design. OHE was tasked with establishing rules and administering the program. [Minnesota Administrative Rules](https://www.revisor.mn.gov/rules/4830/)<sup>2</sup> were established on Tuesday, February 28, 2017.

TSLRP is designed to provide student loan debt relief, in the form of repayment awards, to teachers working in shortage areas identified by the Commissioner of the Minnesota Department of Education (MDE) using data collected for the “Teacher Supply and Demand Report.” The loan repayment program was created as an incentive to encourage qualified licensed teachers to work in identified teacher shortage area classrooms and to reduce the number of school districts that are unable to hire fully licensed teachers in particular license fields.

OHE is required to submit an annual report by February 1 to the chairs of the K-12 and higher education committees of the Legislature. The report must include (1) number of individuals who received loan forgiveness, (2) licensure areas and economic development regions in which the teachers taught, (3) average amount paid to a teacher participating in the program, and (4) other summary data identified by the commissioner as outcome indicators. Currently, 2017 TSLRP applications have been awarded, 2018 applications are in the process of review, and 2019 applications are anticipated to launch in spring of 2019.

# Financial Overview

---

[Minnesota Statutes 136A.1791 Subdivision 8<sup>3</sup>](#) established a fund for TSLRP, making appropriations to the fund “continuously available” for loan repayment awards:

**Table 1. Teacher Shortage Loan Repayment Program Financial Summary**

Fiscal Year	Appropriation	Administrative	Awards
2016/2017 One-Time Appropriation	\$2,000,000.00	\$60,000.00	\$1,940,000.00
2016	\$200,000.00	\$6,000.00	\$194,000.00
2017	\$200,000.00	\$6,000.00	\$194,000.00
2018/2019 One-Time Appropriation	\$500,000.00	\$15,000.00	\$485,000.00
2018	\$200,000.00	\$6,000.00	\$194,000.00
2019	\$200,000.00	\$6,000.00	\$194,000.00
<b>TOTAL</b>	<b>\$3,300,000.00</b>	<b>\$99,000.00</b>	<b>\$3,201,000.00</b>

OHE paid \$833,306.87 in fiscal year 2018 based upon 2017 applications (2016-2017 shortage areas).

A total balance of \$1,658,693 remains for future awards.

2018 applications (2017-2018 shortage areas) are still in review and expected to be paid in fiscal year 2019.

# Shortage Areas

---

OHE requests MDE to identify teacher shortage areas on an annual basis for the purposes of administering this program. However, some of the data MDE uses to identify shortage areas is not collected annually because the MDE “Teacher Supply and Demand Report” is only produced every two years. Teacher shortage areas include (1) economic development region shortage areas, (2) statewide license fields shortage areas and (3) license field shortage areas within each economic development region.

Teachers are eligible to apply for TSLRP if they are:

- Providing classroom instruction in a designated license field teacher shortage area anywhere in the state; OR
- Providing classroom instruction in any license field in an economic development region identified as having a teacher shortage area; OR
- Providing classroom instruction in a designated license field teacher shortage within the economic development region in which they teach; OR
- A fully licensed teacher providing classroom instruction who belong to any racial or ethnic group other than White (non-Hispanic/Latino).

In addition, teachers must be fully-licensed (e.g. not teaching under a Special Permission or Variance) in the license field(s) in which they are providing classroom instruction.

For fiscal year 2017 (2016 application), see the report submitted last year, “[Teacher Shortage Loan Forgiveness Program: February 1, 2017](#),” for shortage area information. For fiscal year 2018 (2017 application) the teacher shortage areas identified by MDE included:

Statewide Racial and Ethnic Groups Shortage Area:

Refers to fully-licensed teachers providing classroom instruction and who belong to any racial or ethnic group other than White (non-Hispanic/Latino) meet this shortage area.

# Application and Award Process

---

A TSLRP applicant may receive a maximum of \$1,000 per year, not to exceed the balance of the applicant's qualified educational loans, including principal and interest. An applicant may receive a lifetime maximum of five awards. OHE assumed the likelihood of receiving more applications from eligible teachers than available funding, so the following elements are addressed in [Minnesota Administrative Rules 4830.9130<sup>5</sup>](https://www.revisor.mn.gov/rules/?id=4830.9130) and used to prioritize the awards among eligible applicants:

- A. Financial need of an applicant, considering the applicant's income (without regard to spousal income, if applicable), household size, and total qualified educational loan;
- B. Previous awards to the applicant from TSLRP;
- C. Whether the applicant is employed in an economic development region that is a teacher shortage area;
- D. Whether the applicant is employed in a teacher shortage area within the applicant's economic development region;
- E. Whether the applicant is employed in a statewide teacher shortage area;
- F. Whether the applicant belongs to any racial or ethnic group other than White (non-Hispanic/Latino; and
- G. Statewide distribution of funds.

## Applicants

To be an eligible applicant, an individual must:

- A. Hold a teaching license issued by the Minnesota Professional Educator Licensing and Standards Board;
- B. Be employed by a school district to provide classroom instruction in a teacher shortage area;
- C. Not have received five annual awards from this program;
- D. Provide a complete application;
- E. Have outstanding qualified educational loan debt;
- F. Not submit false or misleading information on any application to this program; and
- G. Provide verification of the application of previously awarded funds toward eligible qualified educational loans, if the applicant has previously received an award.

## Applications

To date, three application periods have been made available:

- 2016 Applications (2015-2016 teaching assignments): May 26, 2016 – June 30, 2016
- 2017 Applications (2016-2017 teaching assignments): May 20, 2017 – June 30, 2017
- 2018 Applications (2017-2018 teaching assignments): May 10, 2018 – June 30, 2018

Applicants selected for further review were provided with notice to submit additional supporting documentation during July and August by a deadline of August 31<sup>st</sup>:

---

<sup>5</sup> <https://www.revisor.mn.gov/rules/?id=4830.9130>

- A. Application Data Verification Form
- B. Employment Verification Form (completed by school or school district representative)
- C. Verification of Qualified Educational Loans (statements from lenders and servicers)
- D. Verification of Income and Household Size (federal tax forms)

Review of all application materials was conducted from September through February. Table 2 reflects data for 2017 applications among economic development regions:

**Table 2. Teacher Shortage Loan Repayment Program 2017 Applications**

<b>TOTAL</b>	1048	22	1048	892	857	1070

Ineligible applications were determined prior to selection for review and during review. The number of completed verifications is less than the number of review documents received, because some applicants submitted incomplete documentation. Of those selected for review, 82% of applications resulted in complete verification and awards.

Table 3 reflects data for the 2018 applications, still processing, among economic development regions:

As reflected in Tables 2 and 3, the number of eligible applications received significantly increased by 976 applications between 2017 and 2018. With this increase in applications, a priority selection process was put in place to select applicants. Applications were prioritized based on the following:

- A. Financial need of an applicant, considering the applicant’s income, household size, and total qualified educational loan debt;
- B. Previous awards to the applicant from the Teacher Shortage Loan Repayment Program;
- C. Employment location and licensure field in which applicant is currently providing classroom instruction; and
- D. Racial or ethnic group of the applicant, which is underrepresented in the Minnesota teacher workforce.

## Awards

Upon successful verification of 2017 application documents, OHE notified applicants of awards, sent award payments, and required award recipients to return documents verifying payment was made to student loans. Award recipients who do not return documents verifying payment was made to student loans are no longer eligible for future TSLRP awards. Of the 835 award recipients, 582 (70%) elected to re-apply with the 2018 application. Only 15 re-apply applicants were determined ineligible due to not submitting documentation that verified student loan payments to OHE within 60 days of receiving the award.

## Future Consideration

---

The broad definition of Minnesota shortage areas makes it possible for virtually any teacher in Minnesota with outstanding student loan debt to meet at least one of the shortage area requirements. As a result, TSLRP awards are likely to become extremely competitive within the next few years. Reevaluation of measures defining shortage areas may better allow TSLRP to meet the goals of encouraging qualified licensed teachers to work in identified teacher shortage area classrooms and to reduce the number of school districts that are unable to hire fully licensed teachers in particular license fields. This may include the development of alternative state definitions of shortage areas in order to better target limit funding.
