About the Office of Higher Education

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency also serves as the state's clearinghouse for data, research and analysis on postsecondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program is the largest financial aid program administered by the Office of Higher Education, awarding up to \$210 million in need-based grants to Minnesota residents attending eligible colleges, universities and career schools in Minnesota. The agency oversees other state scholarship programs, tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Plan, licensing and early college awareness programs for youth.

Executive Summary

The Minnesota State Grant program is a need-based financial aid program established in 1969 to assist Minnesota resident undergraduates attending public and private postsecondary institutions in Minnesota. In fiscal year 2022, approximately 69,495 students received State Grants, for a total of nearly \$202 million. The State Grant program is designed to provide choice and access to undergraduate students to attend the postsecondary institutions that best meet their needs. The State Grant program provides financial aid to students in conjunction with the Federal Pell Grant.

Average Combined Federal Pell and Minnesota State Grant Award Received by State Grant Recipients, Fiscal Year 2022

*Includes only Federal Pell Grants received by Minnesota State Grant recipients

Report Highlights:

- In fiscal year 2022, 55% of State Grant recipients had a family adjusted gross income of less than \$40,000.
- Most State Grant recipients attended a public university: 59% of recipients attended a Minnesota State College or University, 17% attended the University of Minnesota, and 24% attended a private college.
- In academic year 2021-2022, Minnesota ranked 18th in financial aid spending per full-time equivalent undergraduate among all states and U.S. territories¹, according to the National Association of State Student Grant Aid Programs Annual Survey.

¹ Full-time equivalent undergraduates are calculated by taking the sum of credits carried by all students at a particular level enrolled in classes, divided by the number of credits in a full-time load (15 credits). An FTE of 1.0 is equivalent to one full-time student.

Introduction

The Minnesota State Grant program is a need-based financial aid program created to assist Minnesota resident undergraduates attending public and private postsecondary institutions² in Minnesota. The program was established in 1969; and in fiscal year 2022, approximately 69,495 students were awarded grants, totaling nearly \$202 million. The State Grant program is designed to provide choice and access to undergraduate students to attend the postsecondary institutions that best meet their needs. The State Grant program provides financial aid to students in conjunction with the Federal Pell Grant.

Since 1983, Minnesota State Grant policy has used the Design for Shared Responsibility model, a framework that was influenced by the work of the Carnegie Commission on Policy Studies in Higher Education. The goal of the program is established in [Minnesota Statute 136A.095](#):

The legislature finds and declares that the identification of men and women of the state who are economically disadvantaged and the encouragement of their educational development in eligible institutions of their choosing are in the best interests of the state and of the students.

This policy statement provides a framework when considering changes to the State Grant program. The Design for Shared Responsibility model accounts for the student's family income, choice of institution, and enrollment level, and distributes the price of postsecondary education among students, families, and taxpayers.

This report contains data on the number and dollar amounts of Minnesota state grants received by Minnesota undergraduate students for fiscal year 2022 (July 1, 2021 to June 30, 2022). Because a student's State Grant award considers a federal Pell Grant award the student receives, this report includes tables and graphs of combined Federal Pell and Minnesota State Grant awards received by Minnesota State Grant recipients. The report also includes data on student characteristics that impact the calculation of State Grant awards: family adjusted gross income³, dependency status/family circumstances, institution choice, and registration credit load. State Grant award recipient demographics such as race/ethnicity and gender are also reported. All tables and charts in this report show the family adjusted gross income of Minnesota State Grant recipients as reported on the Free Application for Federal Student Aid (FAFSA) from the parents' federal income tax return. For dependent students, the parents' adjusted gross income is used; for independent students, the student's (and spouse's, if married) adjusted gross income is used.

Information reported here is based on State Grant data available as of October 12, 2022. Totals may differ from other documents published by the Minnesota Office of Higher Education made before or after this date.

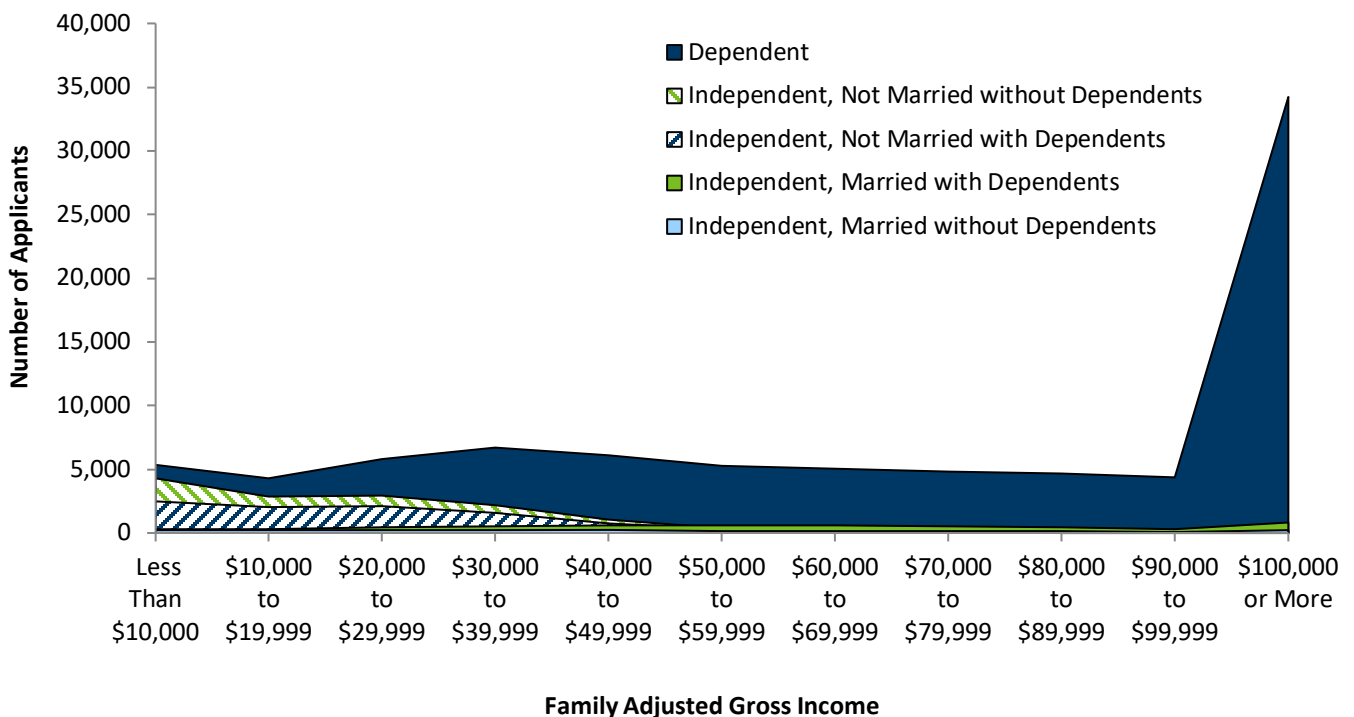

² Private postsecondary institutions that meet eligibility requirements are able to participate in the State Grant program if they choose to.

³ Adjusted gross income is gross income minus certain deductions, such as health savings account deductions or retirement account contributions. Adjusted gross income is used to calculate federal taxable income.

Fiscal Year 2022 Applicants

Students applying for financial aid complete a Free Application for Federal Student Aid (FAFSA) or a state aid application. The form asks students and their parents to supply information regarding wages, income, assets, and household composition. This information is used in the federal need analysis formula called Federal Methodology, which determines the family’s expected contribution toward college costs using the student’s and parents’ financial resources. The formula calculates an expected Parent Contribution (PC), an expected Student Contribution (SC) and an Expected Family Contribution (EFC). These calculations determine the student’s eligibility for federal student aid and, in Minnesota, the student’s eligibility for the Minnesota State Grant program.

Figure 1. Minnesota Undergraduate Applicants Eligible for a Minnesota State Grant, by Income and Family Type, Fiscal Year 2022

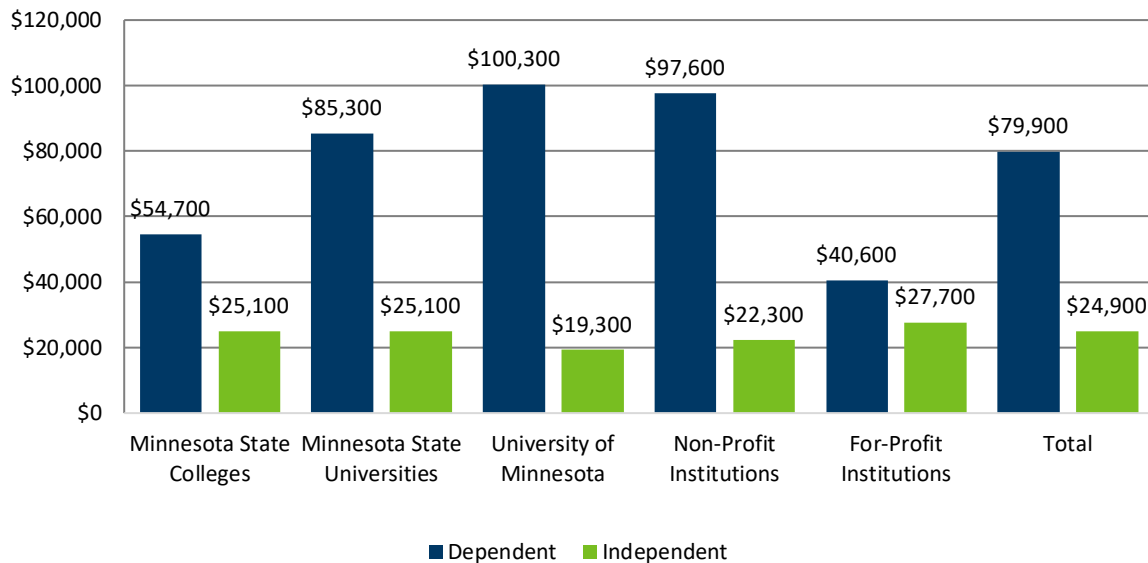

For fiscal year 2022 (academic year 2021-2022), 117,667 students completed the FAFSA or state aid application and met eligibility requirements outlined in state statute to receive a Minnesota state grant. These totals also include students meeting eligibility requirements under the Minnesota Dream Act. Nearly 75 percent of applicants were dependent students. The remaining 25 percent of applicants were independent students. As shown in Figure 1, dependent student and married independent student applicants are distributed across all family adjusted gross incomes. Independent students who are unmarried display a smaller range of family adjusted gross incomes. Most unmarried independent students have family incomes of less than \$30,000.

Income Profile of Applicants by Dependency Status

Across all institutions, independent students had lower median family incomes (\$24,900) than dependent students (\$79,900). Independent students enrolled at the University of Minnesota had the lowest median family income (\$19,300) (Figure 2, Table 1). Dependent students enrolled in private for-profit institutions had lower median family incomes (\$40,600) compared to those enrolled in other sectors (Figure 2, Table 1).

**Figure 2. Median Family Adjusted Gross Income, by Sector
Fiscal Year 2022 State Grant Applicants**

**Table 1. Median and Mean Family Adjusted Gross Income of State Grant Applicants,
by Institution Sector and Dependency Status, Fiscal Year 2022**

Sector	Student Type	Median Income	Mean Income	Count
Minnesota State Colleges	Dependent	\$54,700	\$68,600	27,327
Minnesota State Colleges	Independent	\$25,100	\$30,500	20,221
Minnesota State Colleges	Total	\$37,200	\$52,400	47,548
Minnesota State Universities	Dependent	\$85,300	\$96,500	15,868
Minnesota State Universities	Independent	\$25,100	\$34,500	3,674
Minnesota State Universities	Total	\$70,900	\$84,800	19,542
University of Minnesota	Dependent	\$100,300	\$119,500	21,452
University of Minnesota	Independent	\$19,300	\$27,100	1,330
University of Minnesota	Total	\$94,700	\$114,100	22,782
Non-Profit Institutions	Dependent	\$97,600	\$124,200	20,904

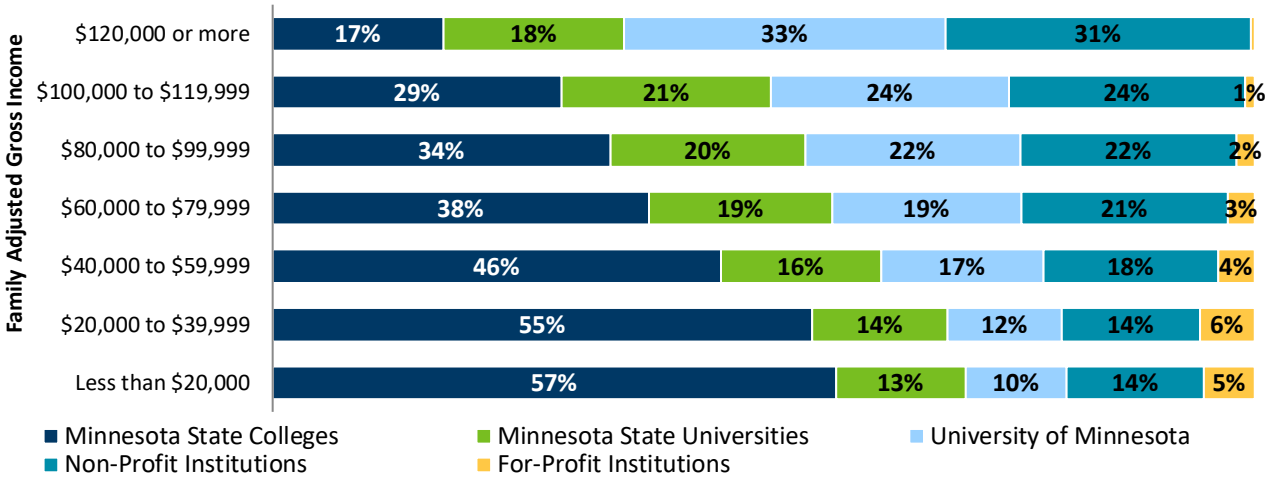

Sector	Student Type	Median Income	Mean Income	Count
Non-Profit Institutions	Independent	\$22,300	\$31,900	3,239
Non-Profit Institutions	Total	\$84,400	\$111,800	24,143
For-Profit Institutions	Dependent	\$40,600	\$49,200	1,076
For-Profit Institutions	Independent	\$27,700	\$32,500	2,576
For-Profit Institutions	Total	\$30,200	\$37,400	3,652
Total	Dependent	\$79,900	\$99,500	86,627
Total	Independent	\$24,900	\$31,100	31,040
Total	Total	\$57,300	\$81,500	117,667

Enrollment Profile of Applicants by Income

The State Grant program provides funds to economically disadvantaged students to attend the institution of their choosing. Nonetheless, this comparison highlights existing economic stratification in enrollment among Minnesota students.

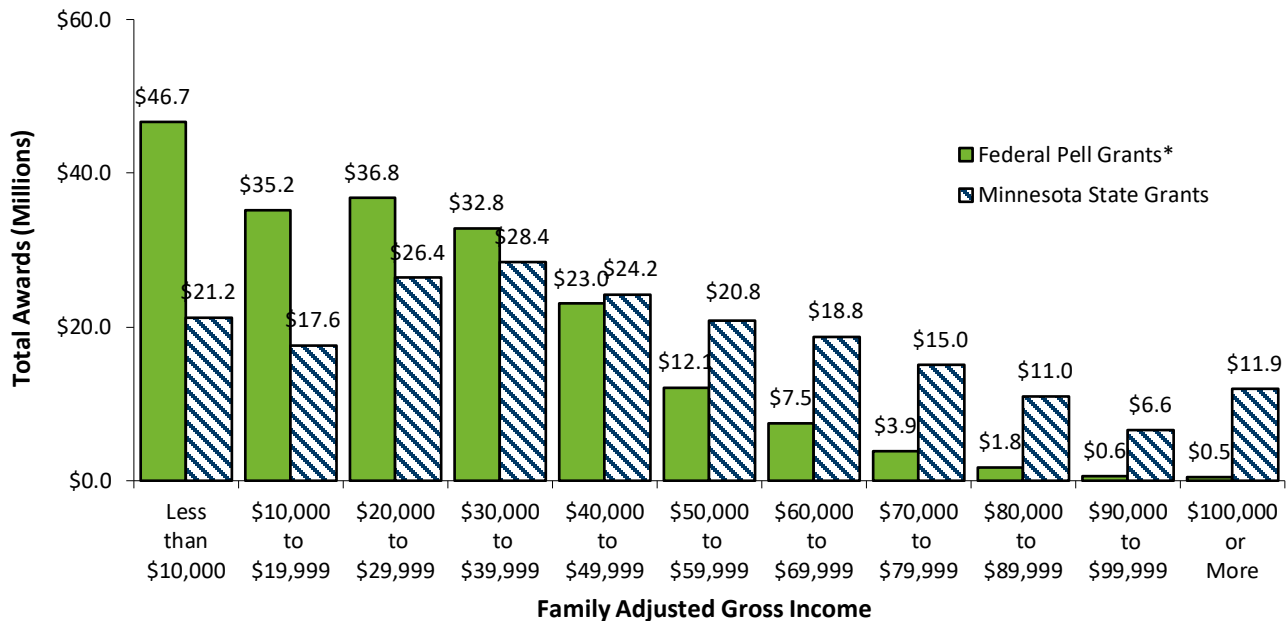

At higher family incomes, a greater percentage of students enroll at private non-profit institutions and the University of Minnesota (Figure 3). The University of Minnesota had the highest median family adjusted gross income (\$94,700 among all students) among Minnesota postsecondary sectors (Table 1). Among 2022 applicants from families with incomes below \$20,000, 57 percent enrolled in a Minnesota State College. By comparison, nearly two-thirds of applicants from families with incomes of \$120,000 per year or more enrolled at the University of Minnesota or a private non-profit institution (Figure 3).

Figure 3. Institution Choice of State Grant Applicants by Family Adjusted Gross Income, Fiscal Year 2022

Fiscal Year 2022 Recipients

Figure 4. Federal Pell and Minnesota State Grant Awards Received, by Family Adjusted Gross Income, Fiscal Year 2022

*Includes only Federal Pell Grants received by Minnesota State Grant recipients

During fiscal year 2022, 69,495 students from the initial applicant pool received a State Grant, with awards totaling approximately \$202 million. These totals include students eligible to receive the Minnesota State Grant by meeting eligibility requirements of the Minnesota Dream Act. Minnesota State Grant awards are determined solely by the student’s financial need, with the highest-need students and families receiving a greater share of State Grant funding. Of the \$202 million in Minnesota state grants awarded in fiscal year 2022, more than half of that total was awarded to students from families earning less than \$50,000 annually (Figure 4). These students represent approximately two-thirds of all State Grant recipients (Figure 5).

Figure 5. Number and Cumulative Percentage of Minnesota State Grant Recipients, Fiscal Year 2022

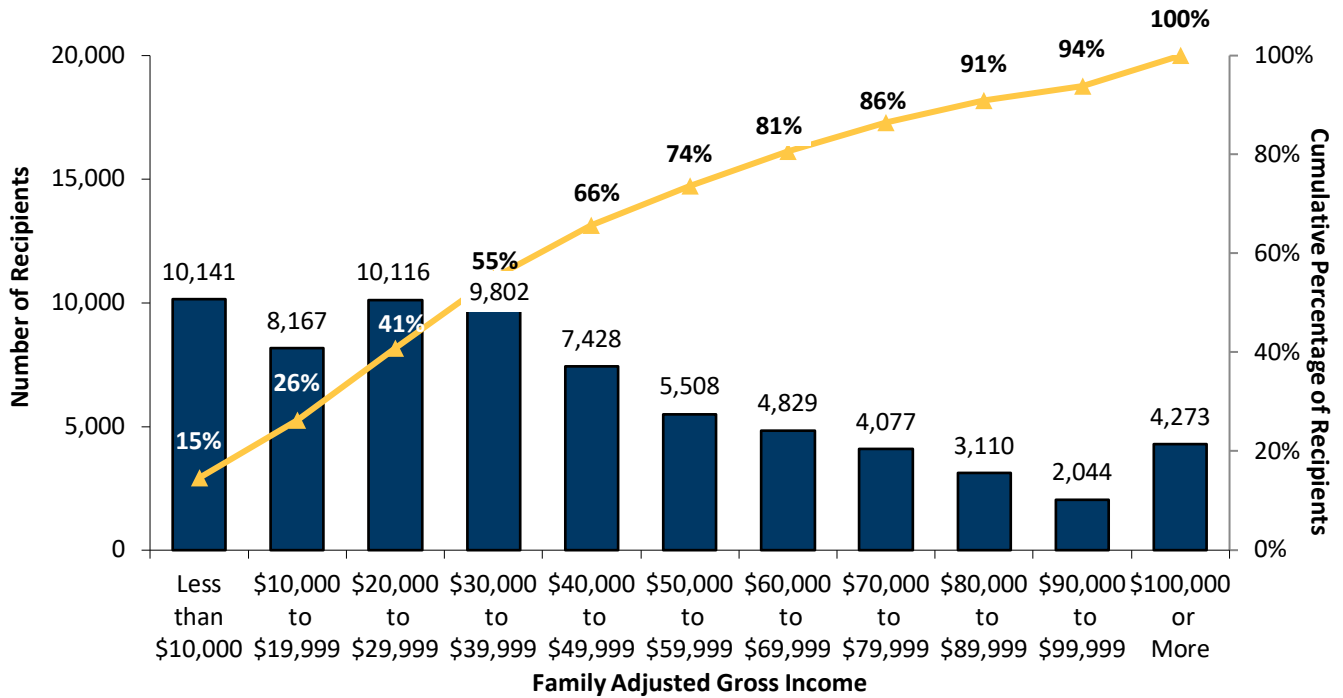

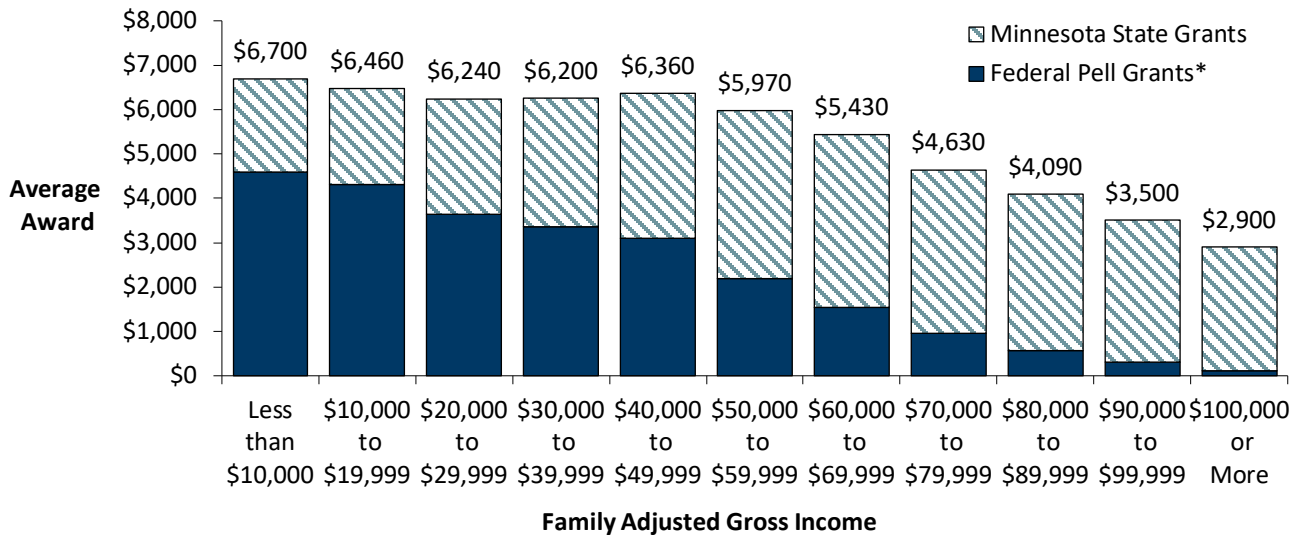

Figure 6. Average Combined Federal Pell and Minnesota State Grant Award Received, by Family Adjusted Gross Income, Fiscal Year 2022

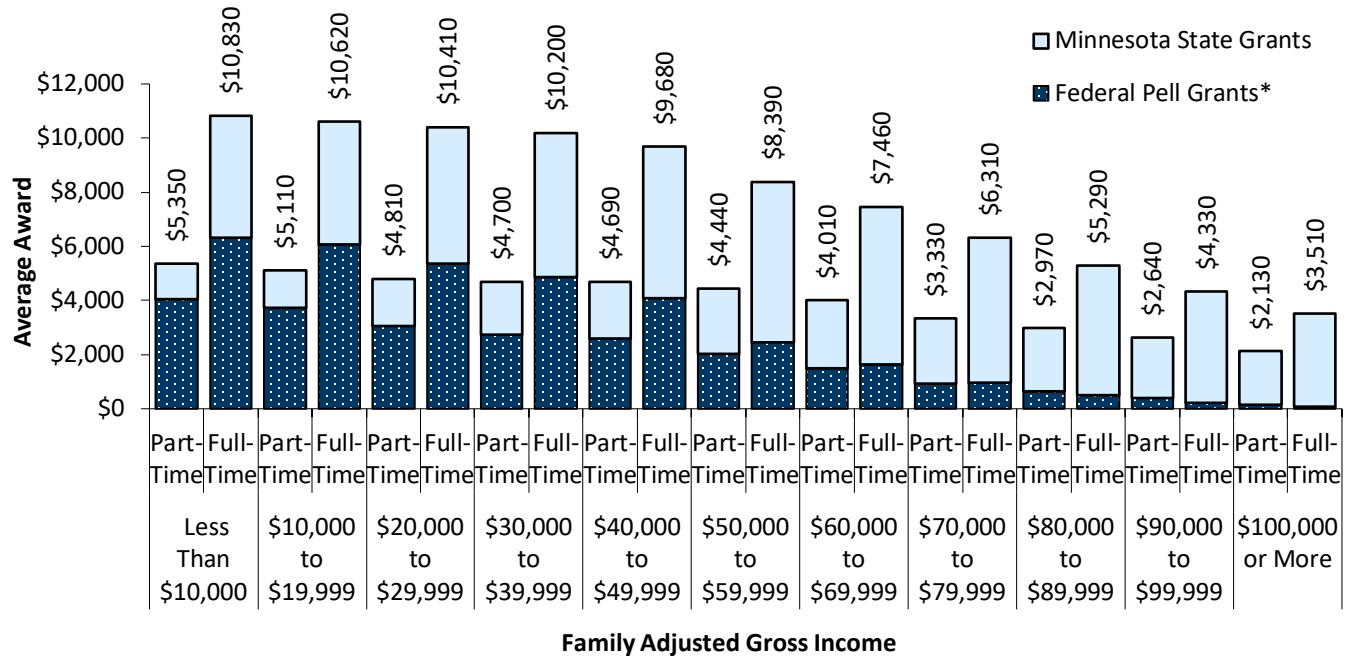

*Includes only Federal Pell Grants received by Minnesota State Grant recipients

Many students receiving a Minnesota State Grant also receive a Federal Pell Grant award as part of their total financial aid package. Figure 6 shows the average combined award for the Federal Pell Grant and the Minnesota

State Grant by income. Students from families earning less than \$10,000 annually received the highest combined average award (\$6,700) (Figure 6).

Figure 7 displays the average combined award for the Federal Pell Grant and the Minnesota State Grant by income and full-time/part-time enrollment status. Full-time enrollment is defined as being enrolled for 30 credits or more for the academic year. As shown in Figure 7, students that attend full time receive higher average State Grants and higher average Federal Pell Grants compared to students that attend part time. This is because full-time students typically pay more in total tuition per year than students attending less than full time, and the State Grant calculation considers actual tuition and fees charged to the student. Full-time students from families earning less than \$10,000 received the highest average combined award in 2022 (\$10,830) (Figure 7).

Figure 7. Average Combined Federal Pell and Minnesota State Grant Award Received by State Grant Recipients, by Full-Time/Part-Time Status, Fiscal Year 2022

*Includes only Federal Pell Grants received by Minnesota State Grant recipients

Postsecondary Institution Choice

A student’s State Grant award is determined by calculating the total cost of attendance at the institutions chosen by the student. Institutions are grouped into five categories for this report:

- Minnesota State Colleges — two-year colleges
- Minnesota State Universities — four-year universities
- University of Minnesota System
- Minnesota private non-profit institutions
- Minnesota private for-profit institutions

Tribal colleges operated by entities other than Minnesota State Colleges and Universities are included in the “Private Non-Profit Institutions” category for reporting purposes.

**Table 2. Minnesota State Grant Receipt, by Type of Institution, Fiscal Year 2022
Programs of Two Years or Less**

Type of Institution Attended	Number of Recipients	Combined Federal Pell and Minnesota State Grants (millions)	Minnesota State Grants (millions)
Minnesota State Colleges	29,378 (89% of recipients in 2-year programs)	\$120.79	\$34.68 (86% of dollars awarded to students in 2-year programs)
Minnesota State Universities	0	\$0.00	\$0.00
University of Minnesota	0	\$0.00	\$0.00
Minnesota Private Non-Profit Institutions	1,085 (3% of recipients in 2-year programs)	\$5.57	\$1.97 (5% of dollars awarded to students in 2-year programs)
Minnesota Private For-Profit Institutions	2,718 (8% of recipients in 2-year programs)	\$11.50	\$3.65 (1% of dollars awarded to students in 2-year programs)
<i>Subtotal – Programs of 2 Years or Less</i>	<i>33,181 (48% of all recipients)</i>	<i>\$137.86</i>	<i>\$40.30 (20% of all dollars awarded)</i>

Programs of Four Years

Type of Institution Attended	Number of Recipients	Combined Federal Pell and Minnesota State Grants (millions)	Minnesota State Grants (millions)
Minnesota State Colleges	0	\$0.00	\$0.00
Minnesota State Universities	11,735 (32% of recipients in 4-year programs)	\$67.11	\$32.72 (20% of dollars awarded to students in 4-year programs)
University of Minnesota	11,813 (33% of recipients in 4-year programs)	\$95.25	\$62.41 (39% of dollars awarded to students in 4-year programs)
Minnesota Private Non-Profit Institutions	12,305 (34% of recipients in 4-year programs)	\$100.20	\$65.51 (41% of dollars awarded to students in 4-year programs)
Minnesota Private For-Profit Institutions	461 (1% of recipients in 4-year programs)	\$2.25	\$0.94 (1% of dollars awarded to students in 4-year programs)
<i>Subtotal – Programs of 4 Years</i>	<i>36,314 (52% of all recipients)</i>	<i>\$264.81</i>	<i>\$161.58 (80% of all dollars awarded)</i>
Total (All Programs)	69,495	\$402.67	\$201.89

The State Grant award calculation uses the average tuition and fees charged to undergraduate students at their institution or the tuition and fee maximums established in state law. Students with lower average tuition and fee charges receive smaller awards. As a result, lower-cost institutions receive a smaller percentage of total State Grant funds (e.g. Minnesota State Colleges). Students with higher-than-average tuition and fee charges receive larger State Grant awards, resulting in higher-cost institutions receiving a greater percentage of total State Grant funds (e.g. University of Minnesota) (Table 2).

The maximum tuition and fees allowed for two-year programs is significantly lower (\$6,287) than the maximum tuition and fees allowed for four-year programs (\$15,368). Because full-time students will also receive a higher State Grant award, institutions that enroll a higher percentage of full-time students tend to receive a higher percentage of total State Grant funds as compared to institutions that enroll a higher percentage of part-time students.

Demographics of Recipients

In 2022, 45 percent of State Grant recipients identified as Black, indigenous, or persons of color (BIPOC) (Figure 8). A full disaggregation of State Grant recipients by race and ethnicity is shown in Figure 9.

Figure 8. Minnesota State Grant Recipients by Student Race and Ethnicity, Fiscal Year 2022

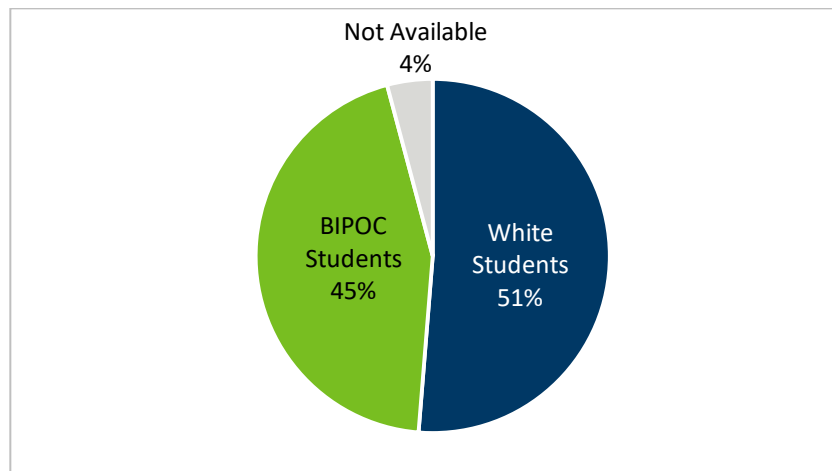

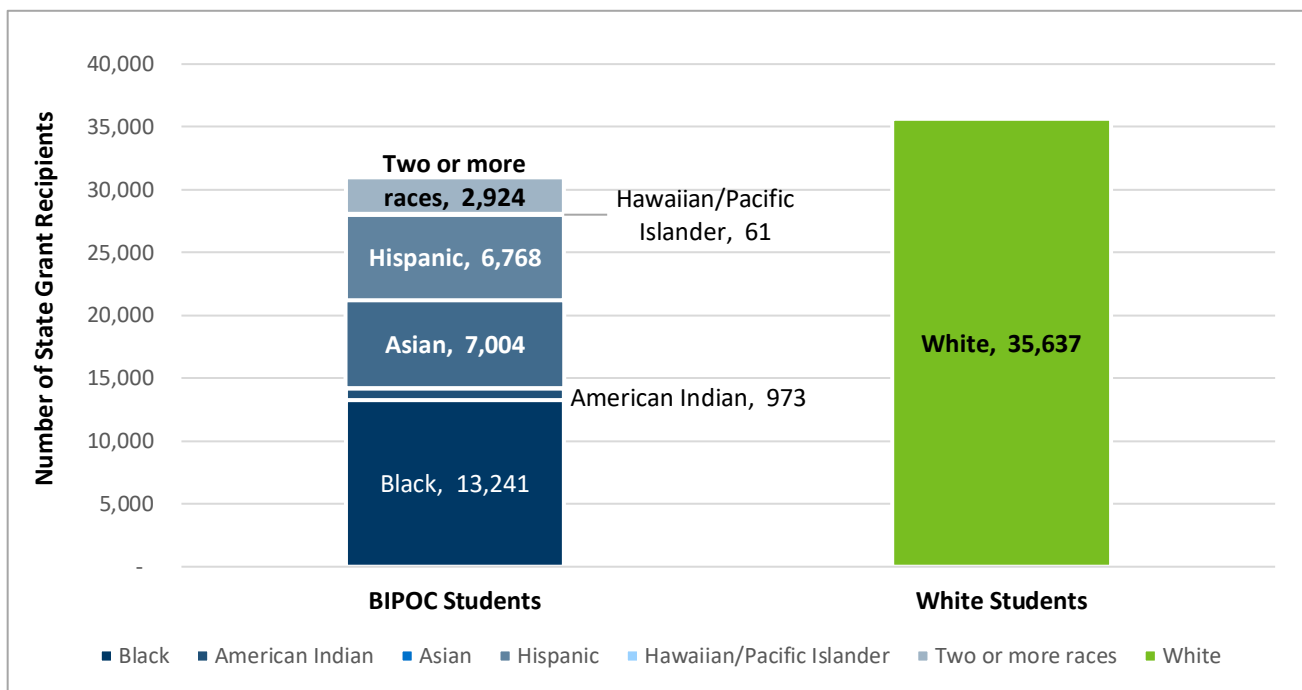

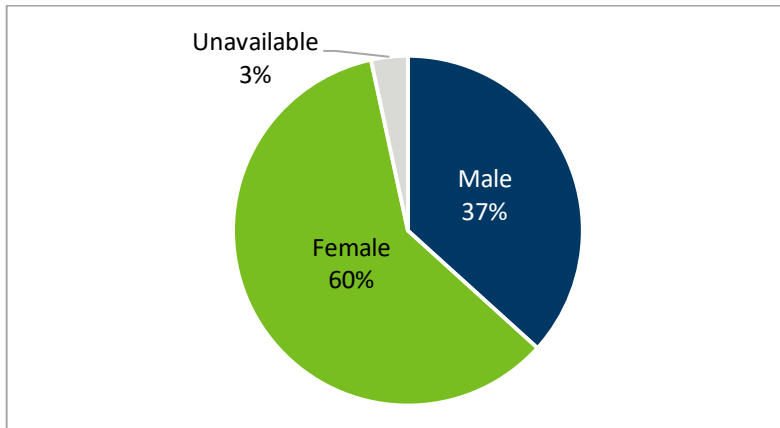

Figure 9. Minnesota State Grant Recipients by Student Race and Ethnicity, All Recipients, Fiscal Year 2022

Roughly 60% of State Grant recipients reported as female in 2022, while roughly one-third of recipients reported as male (Figure 10).

Figure 10. Minnesota State Grant Recipients by Student Gender, Fiscal Year 2022

State Grant recipients were, on average, 22.6 years old in fiscal year 2022, but the average age of State Grant recipients varies by institution type (Table 3). At Minnesota State Colleges, students over the age of 24 make up roughly one-third of State Grant recipients. By comparison, at the University of Minnesota system, students in these same age brackets represent approximately 5% of recipients at the system (Figure 11).

Figure 11. Percent of Minnesota State Grant Recipients by Age Group and Institution Type, Fiscal Year 2022

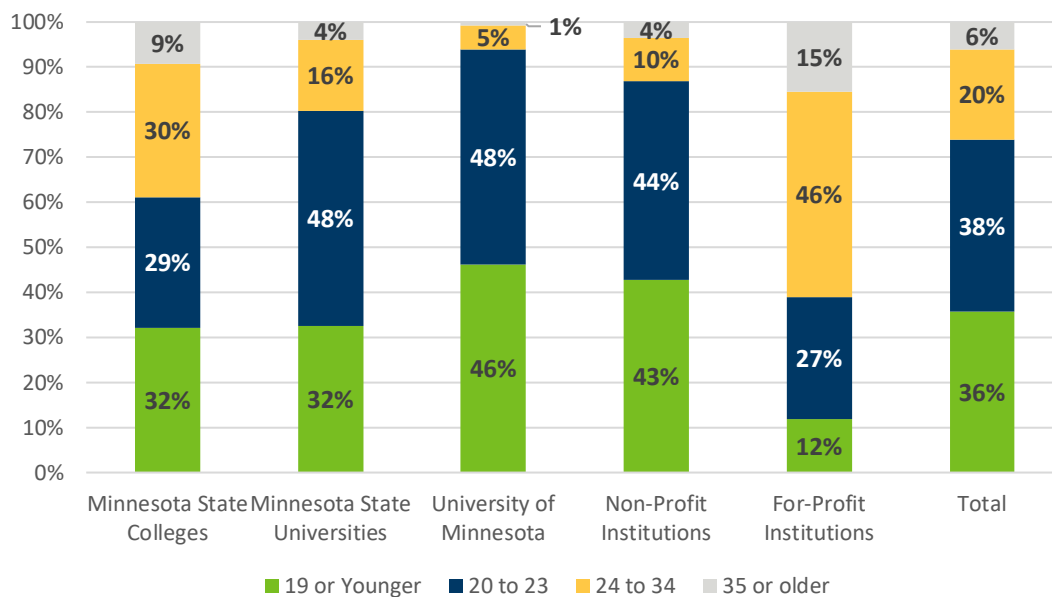

Table 3. Average Age of State Grant Recipients by Institution Type, Fiscal Year 2022

Type of Institution Attended	Average Age of State Grant Recipients
Minnesota State Colleges	24.1
Minnesota State Universities	22.0
University of Minnesota	20.1
Private Non-Profit Institutions	21.1
Private For-Profit Institutions	27.1
All Institution Types	22.6

Dependency Status & Family Circumstances

The student's and family's ability to pay for the total cost of attendance (tuition and fees, plus a living and miscellaneous expense allowance) is assessed differently for each family category in the State Grant award formula. Family categories are:

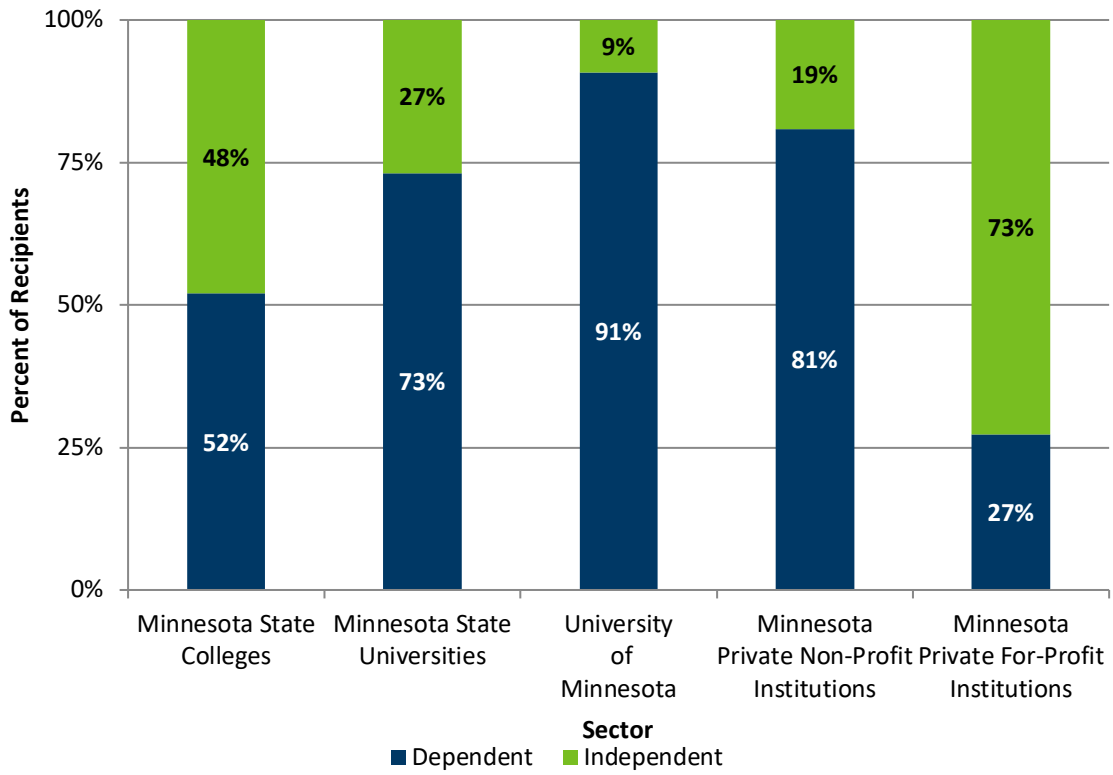

- Dependent students (usually students younger than 24 years old who were not married, not supporting their own children, and were not veterans/military service members)
- Married independent students with dependents (usually children)
- Unmarried independent students with dependents
- Married independent students with no dependents other than a spouse
- Unmarried independent students with no dependents

**Table 4. Minnesota State Grant Statistics, Fiscal Year 2022
All State Grant Recipients**

Family Status	Number of Recipients	Combined Federal Pell and Minnesota State Grants (millions)	Minnesota State Grants (millions)
Dependent Students	46,266	\$295.39	\$161.45
Married Independent Students with Dependents (Children)	3,614	\$15.40	\$4.19
Unmarried Independent Students with Dependents (Children)	7,138	\$34.56	\$7.05
Married Independent Students with No Other Dependents	1,254	\$5.66	\$3.22
Unmarried Independent Students with No Dependents	11,223	\$51.65	\$25.98
Total	69,495	\$402.67	\$201.89

The profile of students enrolling by institution type varies. The majority of grant recipients enrolling at Minnesota State Universities, the University of Minnesota and private non-profit institutions are dependent students, as shown in Figure 12.

Figure 12. Percent of State Grant Recipients by Dependency Status and Institution Type, Fiscal Year 2022

Registration Load

The registration load or number of course credits the student enrolls in affects the price of attendance used in calculating Minnesota State Grant awards. The Minnesota State Grant program defines full-time attendance as a registration load of at least 15 credits per term or the equivalent (30 credits per academic year). Average registration load varies by income and family status for State Grant recipients. Dependent students register for more credits annually on average (25.14) than independent students (18.31-20.28), as shown in Table 5.

Table 5. Minnesota State Grant Recipients and Average Annual Credit Load by Family Status, Fiscal Year 2022

Family Status	Number of Recipients	Average Annual Credit Load
Dependent Students	46,266	25.14
Married Independent Students with Dependents (Children)	3,614	18.31
Unmarried Independent Students with Dependents (Children)	7,138	17.52
Married Independent Students with No Other Dependents	1,254	20.28
Unmarried Independent Students with No Dependents	11,223	19.29
Total	69,495	22.97

State Grant recipients from families with an adjusted gross income of \$100,000 or more register for more credits annually on average (27.75) than recipients with family incomes of less than \$100,000 (Table 6). This highlights the economic stratification that exists in how many credits students choose to enroll in.

**Table 6. Minnesota State Grant Statistics, Fiscal Year 2022
All State Grant Recipients**

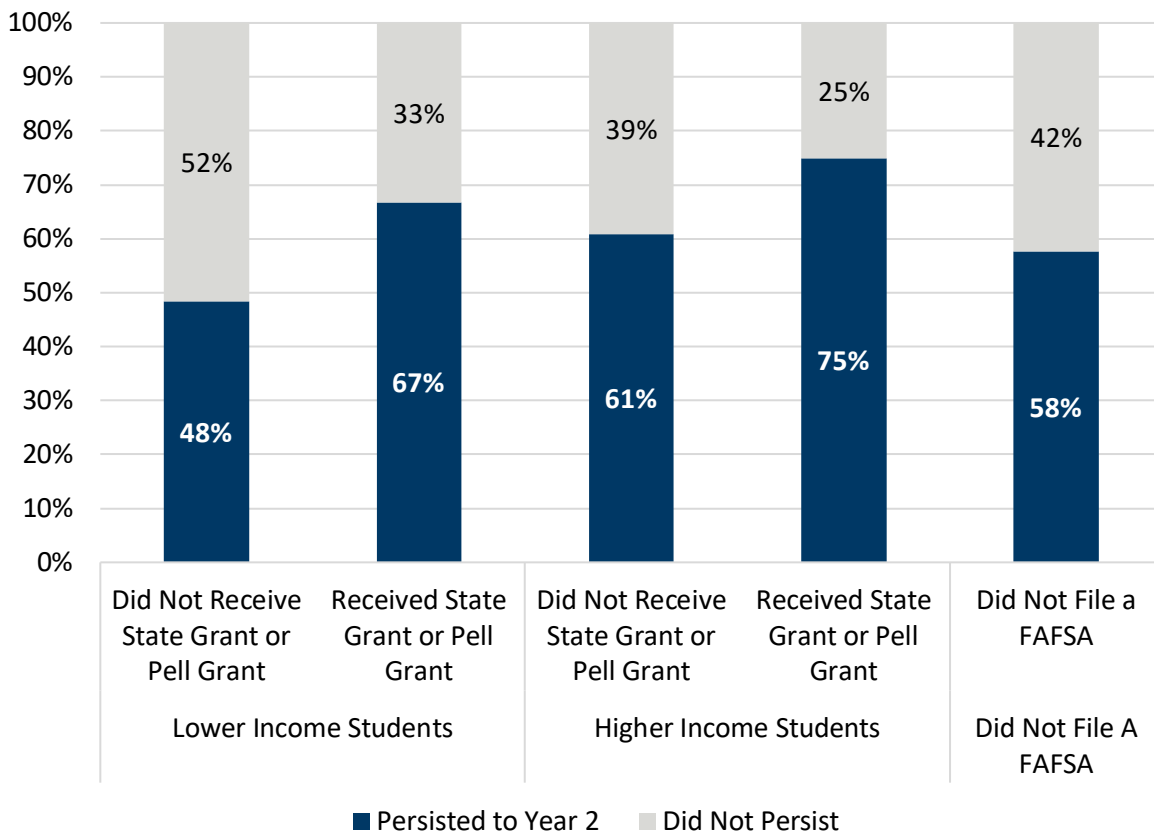

Adjusted Gross Income	Number of Recipients	Average Annual Credit Load
Less Than \$10,000	10,141	21.01
\$10,000 to \$19,999	8,167	20.75
\$20,000 to \$29,999	10,116	21.05
\$30,000 to \$39,999	9,802	21.86
\$40,000 to \$49,999	7,428	23.20
\$50,000 to \$59,999	5,508	24.35
\$60,000 to \$69,999	4,829	25.05
\$70,000 to \$79,999	4,077	25.59
\$80,000 to \$89,999	3,110	26.24
\$90,000 to \$99,999	2,044	26.72
\$100,000 or More	4,273	27.75
Total	69,495	22.97

Persistence of State Grant Recipients

Receiving financial aid can have a powerful impact on a student’s ability to complete their chosen credential. Among new-entering, first-year students enrolled in associate degree programs, at least two-thirds of students with family incomes below the state median and 75% of those with incomes above the state median who received a State Grant or Pell Grant in 2021 persisted to their second year. By comparison, 58% of students who did not file a FAFSA in 2021 persisted to the next year.

Additionally, for students from families with income below the state median, receiving a State Grant or Pell Grant in 2021 had a larger boost to persistence (19 percentage points) than it did for students from families with incomes above the state median (14 percentage points) (Figure 13). However, additional information — such as the student’s enrollment intensity — is needed to explain the significance of differing rates of persistence.

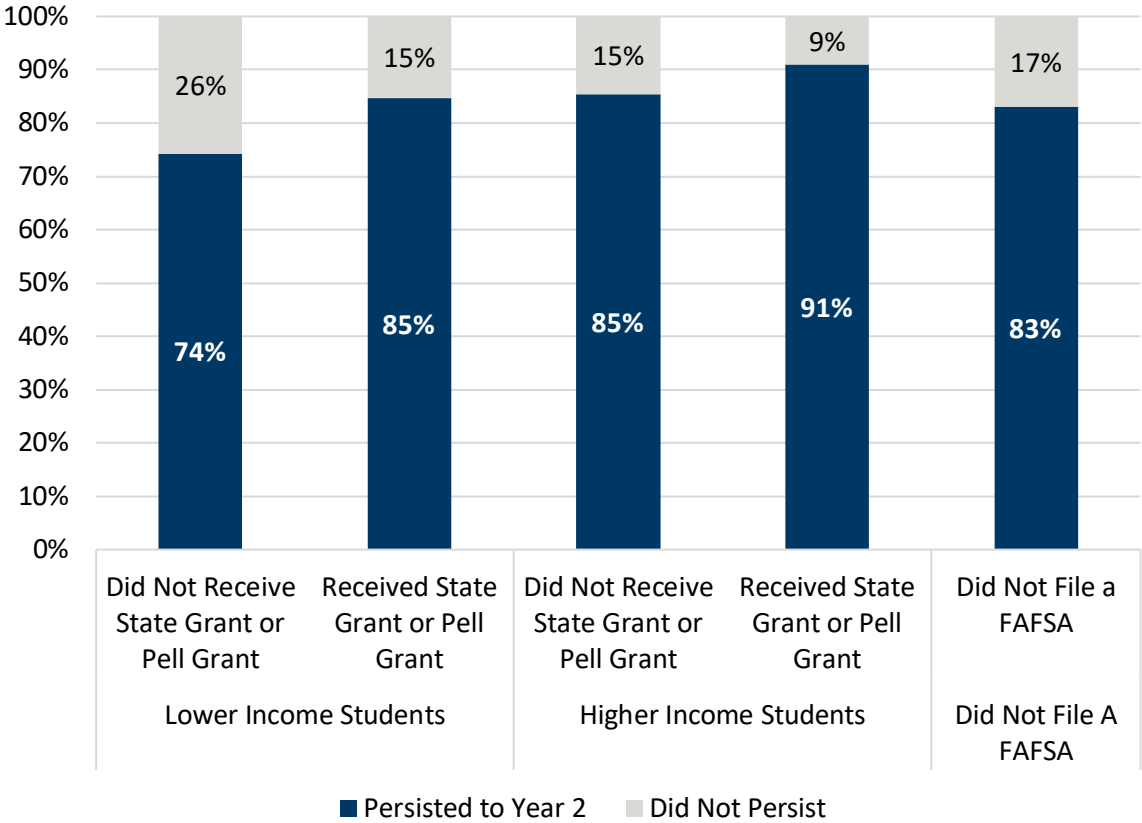

Figure 13: Percent of New Entering First Year Students Enrolled in Associate Degree Programs Persisting to Year 2, by Income and Financial Aid Receipt

Students enrolled in bachelor’s degree programs also saw benefits from receiving financial aid. Those from families with income below the state median who received a State Grant or Pell Grant in 2021 had a larger boost to persistence (11 percentage points) than did students from families with incomes above the state median (6

percentage points). As with students in associate degree programs, those who did not file a FAFSA had lower rates of persistence (83%) compared to financial aid recipients (Figure 14).

Figure 14. Percent of New-Entering First Year Students Enrolled in Bachelor’s Degree Programs Persisting to Year 2, by Income and Financial Aid Receipt

Minnesota Dream Act

In May 2013, the State Legislature passed, and Governor Dayton signed into law, the Minnesota Dream Act (officially titled in Minnesota law as the Prosperity Act). Under this law, undocumented students meeting the criteria in the Minnesota Dream Act are eligible for in-state tuition rates, privately funded financial aid administered by Minnesota public colleges and universities, and can apply for state financial aid, including the Minnesota State Grant program. Minnesota students granted Deferred Action for Childhood Arrivals (DACA) may also be eligible.

The Minnesota Dream Act provides certain benefits to undocumented students with the following criteria:

- Attended a Minnesota high school for at least 3 years; and
- Graduated from a Minnesota high school or earned a GED in Minnesota; and
- Registered with the U.S. Selective Service (applies only to males 18 to 25 years old); and
- Provided documentation to show they have applied for lawful immigration status, but only if a federal process exists for a student to do so (does not include applying for Deferred Action for Childhood Arrivals). Currently, no federal process exists; therefore, this documentation is not currently required.

During fiscal year 2022, 317 students received state grants pursuant to the Minnesota Dream Act, as shown in Table 7. Students applying for a Minnesota state grant by completing a state aid application under the Minnesota Dream Act are included in all reporting on Minnesota State Grant program recipients throughout this report.

Table 7. Number of Minnesota State Grants Recipients and Amount by Institution Awarded Under the Prosperity Act, Fiscal Year 2022

Participating Institutions	Number of Minnesota State Grant Recipients	Minnesota State Grants Received	Average Minnesota State Grant
Minnesota State Two-Year Colleges	120	\$142,964	\$1,191
Minnesota State Four-Year Universities	32	\$114,380	\$3,574
University of Minnesota	60	\$391,706	\$6,528
Minnesota Private Institutions	105	\$636,605	\$6,063
Total	317	\$1,285,655	\$4,056

State Grants 2005-2022

The average state grant that a student receives continues to increase as the state's investment in the program increases.

Figure 15. Average Minnesota State Grant Awards and Number of Recipients Over Time, Fiscal Years 2005-2022

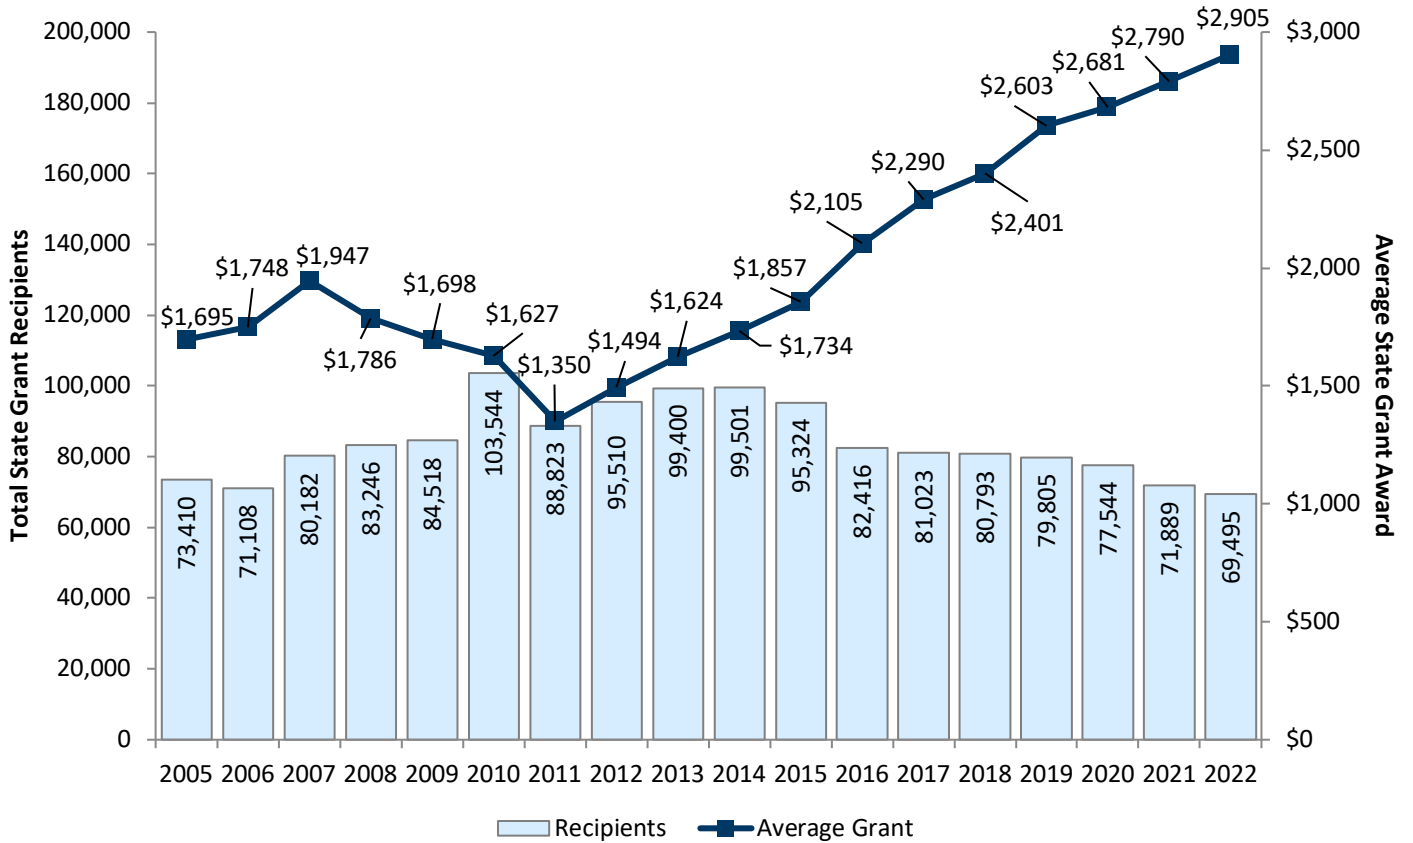

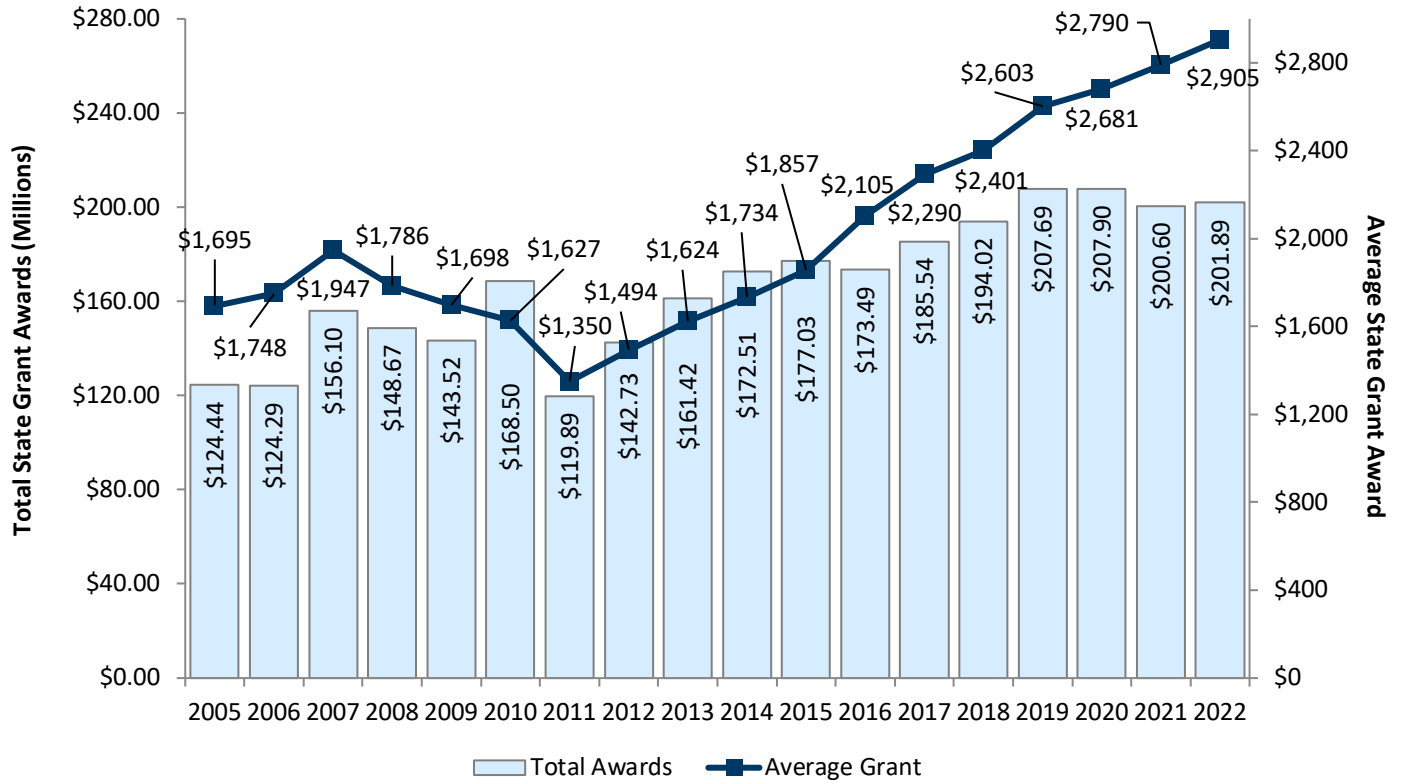

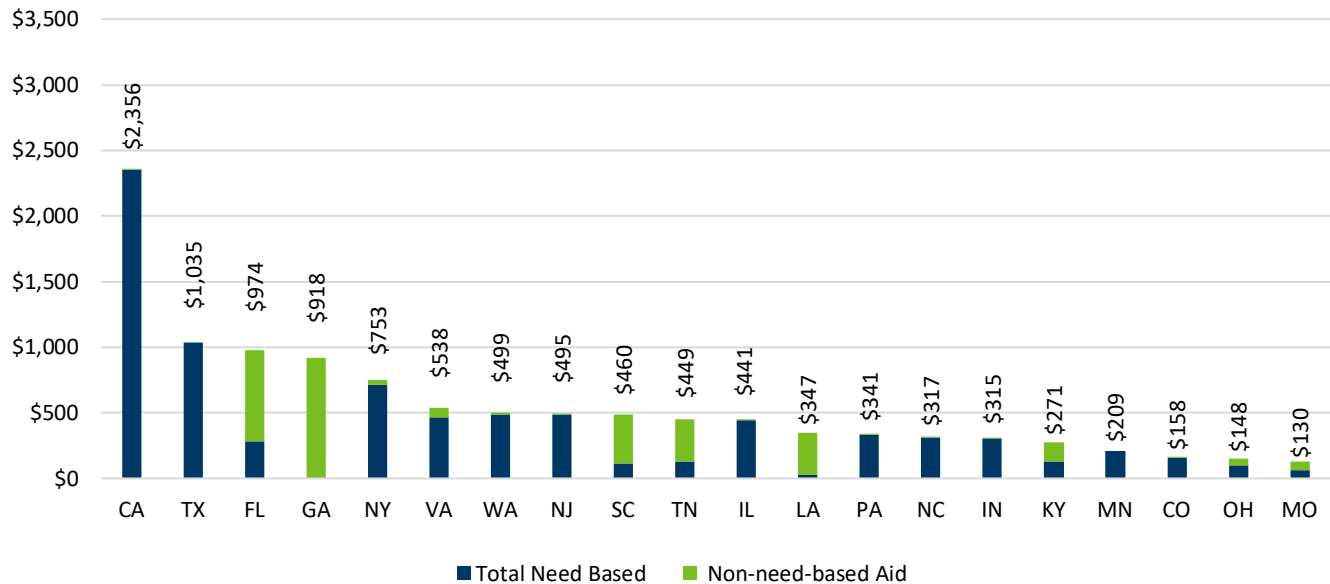

Figure 16. Average Minnesota State Grant Awards and Total Awards Over Time, Fiscal Years 2005-2022

Comparisons with Other States

Figure 17. Minnesota Ranks in the Top 20 States in Total Aid to Undergraduates, 2020-2021

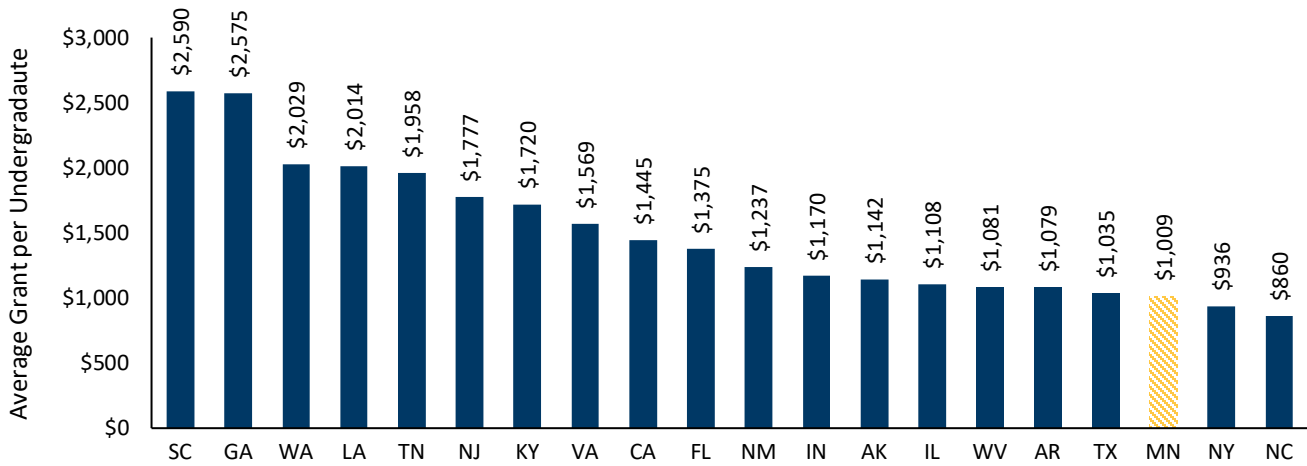

For the 2020-2021 academic year, Minnesota’s State Grant program was 17th in the nation for total grant aid awarded, according to the annual survey of National Association of State Student Grant & Aid Programs (Figure 17). Total grant aid includes both aid awarded solely on the basis of a student’s financial need (need-based aid⁴), as well as aid awarded by some other standard — such as academic merit — without considering financial need (non-need based aid⁵). For example, all of the \$918 million awarded to students by the state of Georgia is considered non-need based aid, while nearly all of the \$209 million awarded to students by the state of Minnesota is considered need-based aid. Minnesota ranks 12th in the nation in total grant aid spending when only need-based grant aid is considered.

⁴ Need-based grants are those awarded based solely on the student’s financial need.

⁵ Non need-based grants are those awarded on measures other than the student’s financial need, such as academic merit.

Figure 18. Minnesota Spends \$1,009 Per Full-time Equivalent Undergraduate, Includes Need-Based and Non-Need-Based Grants, 2020-2021

Source: National Association of State Student Grant & Aid Programs (NASSGAP) annual survey, 2020-2021

Minnesota spends an average of \$1,009 per full-time equivalent (FTE)⁶ undergraduate, which places Minnesota 18th among all other states in grant spending per FTE. The top-spending state in the nation is South Carolina (\$2,590), according to the 2020-2021 annual survey of the National Association of State Student Grant & Aid Programs (Figure 18). When considering need-based aid only, Minnesota ranks 8th in the nation, spending \$1,009 per FTE undergraduate.

⁶ Full-time equivalent undergraduates are calculated by taking the sum of credits carried by all students at a particular level enrolled in classes, divided by the number of credits in a full-time load (15 credits). An FTE of 1.0 is equivalent to one full-time student.

Institution Level Data

Minnesota State Colleges

Participating Institutions	Number of Minnesota State Grant Recipients	Percent of Minnesota State Grant Applicants Receiving a State Grant	Combined Federal Pell and Minnesota State Grants Received	Minnesota State Grants Received	Average Minnesota State Grant
Alexandria Technical College	530	56%	\$2,582,600	\$915,400	\$1,727
Anoka Technical College	613	65%	\$2,547,900	\$907,900	\$1,481
Anoka-Ramsey Community College	1,773	55%	\$6,559,500	\$1,672,000	\$943
Central Lakes College	838	66%	\$3,614,100	\$1,120,800	\$1,337
Century College	2,605	61%	\$10,362,400	\$2,881,200	\$1,106
