

September 21, 2023

Welcome! Today's agenda:

- Logistics, introductions, and welcome
- Connection
- Big goals, big questions
- Setting priorities
- Discussion, general announcements
- Social hour, 4pm-5pm

P-20 EDUCATION
PARTNERSHIP

Connection

Turn to someone sitting near you that you don't know well, and share:

- **Who** you are
- **Where** you work and **your role** there
- Something **enjoyable or meaningful** you did over the summer
- One **hope you have** for the P-20 Partnership's work moving forward

Take five minutes for each person to share.

Planning for 2024 and Beyond

Big Goals, Big Questions

- Defining our **goals, what we do, and how we do it**
 - Develop a vision, mission, action statement
 - Outline roles and responsibilities across the partnership
- Give consideration to **who's at the table**
 - What sectors are missing or do we want to increase representation from?
 - How will we be intentional about including more diverse voices?
 - Who should be more involved as a collaborator or thought partner with P-20?
 - How do we authentically include stakeholder input in our work?

Big Goals, Big Questions

- Embedding our **equity principles** in our work
 - Develop tools to root all of P-20's work in diversity, equity, inclusion, and justice
 - What learning opportunities would strengthen our ability to speak a common language and set shared goals to advance our equity work?
- Building and strengthening **processes**
 - Annually assessing where we fit in the national, regional, and state landscape
 - Ongoing assessment of our own strengths, progress, and continued opportunities
 - Determining a process for setting work priorities and delivering on our full P-20 mission

Big Goals, Big Questions

- Setting the stage for **bigger picture planning**
 - Articulate how we will grow P-20's work in actionable ways that produce tangible results
 - Use analyses to drive conversations that lead to strategic planning
 - How do we strengthen our use of data to support our work *and* also to inform our priorities?
- Determining **priorities** for our work in 2024
 - Assess progress of existing workgroups, determine next steps for each
 - How/where/when do we add new workgroups or tackle new focus areas?

2024-2025 Approach

Two-year strategy:

- Begin with the 2024 work plan (for partnership and for ED)
- Strengthen our foundation first, then look outward at longer term
- Use this coming year to focus on structural evolution, resource identification and development, and some expansion of our priority work areas
- Set the stage for more comprehensive planning in 2025
- Ensure that we continue to make progress on existing priorities while looking toward the future of P-20

Questions or comments?

Your input continues to be critical to setting work priorities.

- Four thematic groupings posted around the room
 - *What we do and how we do it*
 - *Who's at the table*
 - *Equity principles in our work*
 - *Strengthening processes, determining priorities*
- Each grouping has two questions
- Please take 20 minutes (5 minutes per theme) to go around and share your feedback at each station. We encourage you to add more ideas after the meeting as well.

Next Steps

- **Thank you** for your input!
- This information will be collected, documented, and shared back out via email
- This feedback will be incorporated into the 2024 MNP20 work plan that is already being developed
- What questions, thoughts, or general input do you have as you reflect on today's process?

Announcements, Updates, & Invitations

- **Next meeting:** Thursday, November 16, 2:30-4:00pm, via Microsoft Teams
- Ongoing invitation to connect 1:1 with Josiah
- Member sharing:
 - Announcements
 - Updates
 - Invitations

**Please stay and join
us for food and
conversation!**
