About the Office of Higher Education

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency also serves as the state's clearinghouse for data, research and analysis on postsecondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program is the largest financial aid program administered by the Office of Higher Education, awarding more than \$224 million annually in need-based grants to Minnesota residents attending eligible colleges, universities and career schools in Minnesota. The agency oversees other state scholarship programs, tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Plan, licensing and early college awareness programs for youth.

About This Report

This is a legislative-mandated report. As requested by Minnesota Statutes, section 3.197, this report cost approximately \$7,225.18 to prepare, including staff time.

Introduction

A safe environment on college campuses for all students enhances opportunities to learn and grow. Despite ongoing efforts to curb sexual violence on college campuses, sexual violence remains a public health issue for college students. Students who experience sexual violence are at higher risk of mental health issues such as depression, anxiety, and non-suicidal self-injuries.

Minnesota's postsecondary institutions strive to provide students a safe environment to complete educational and employment goals. It is widely understood that people between the ages of 18 to 24 are more likely to experience sexual violence and sexual assault (College Student Health Survey Report, 2021); and individuals in specific underrepresented groups such as American Indian and LGBTQ+ are at even greater risk for perpetration (Krebs et al., 2016). Colleges, universities, and other postsecondary institutions are aware of the impact of sexual violence and sexual assault on a student's retention, credential attainment goals, and overall campus culture.

The Sexual Violence Prevention and Response program at the Minnesota Office of Higher Education currently supports 76 institutions across the state in sexual violence prevention and response initiatives at the campus level by providing training opportunities to meet state statute obligations under 135A.15. Moreover, the Office provides consistent communication on the current federal and state landscape on sexual violence prevention and response that impact institutions and builds relationships among postsecondary institutions, state agencies, and community-based institutions.

In 2022, the Office's Title IX Training Administrator surveyed the needs of institutions and reinvigorated key community partners such as the Minnesota Coalition Against Sexual Assault (MNCASA) and Violence Free Minnesota. The Title IX Training Administrator also collaborated with state agencies such as the Minnesota Department of Health, connected with the newly established Missing and Murdered Indigenous Relatives Office. Fifteen training opportunities to institutions were offered on topics such as the Title IX Notice of Proposed Rulemaking, restorative justice, intimate partner violence screening practices, identifying strangulation, and the intersection of state and federal laws. Networks for both new Title IX coordinators and deputies, and prevention specialists met regularly to support each other in their work and discussed best practices, and campus innovations to end sexual violence in campus communities.

The Office of Higher Education is required by the Minnesota Legislature to publish the Sexual Assault Data Report, which includes information regarding the outcomes of sexual assault incidents reported to postsecondary institutions. The Minnesota Legislature (Minn. Stat. 135A.15) mandated this report beginning in fiscal year 2016 (data for the calendar year 2015) which requires eligible postsecondary institutions to report sexual assault incidents and the outcomes of institutional investigations, if applicable. Historical data is available

in this report and online as part of the Office of Higher Education’s Sexual Assault Data Report dashboard at <http://www.ohe.state.mn.us/sPages/SADR.cfm>.

Key Takeaways

- Since calendar year 2015, postsecondary institutions have received a combined 2,947 reports pertaining to alleged sexual assault incidents. The number of sexual assault incident reports had steadily increased prior to 2020. However, the number of incidences reported decreased between 2020 and 2021, due to the COVID-19 pandemic and the shift to remote learning. As college campuses have reopened, incidence reports have increased compared to report year 2021.
- In calendar year 2022, a total of 316 incidents were reported to institutions. The number of incidents decreased slightly between calendar year 2021 and 2022. About 21.8% of total incidents were reported through an electronic reporting system. Institutions reported that 25% (79) of the 316 incidents reported were investigated in 2022. Since 2016, 38% of sexual assault incidents reported to postsecondary institutions have been investigated.
- In report year 2023 (calendar year 2022), 13.6% of sexual assault incidents reported to postsecondary institutions were also reported to law enforcement, according to the best information available to the institution; this rate is lower than the average from report years 2016 to 2023 (16.1%).
- The number one reason reported by institutions for an institutional investigation not being opened is that the complainant chose not to participate in the disciplinary process. This was the case for 41.2% (1,215 out of 2,947) of cumulative incidents from the report years 2017-2023. Complainants sometimes elect this route to receive supportive measures without undergoing a Title IX investigation (note: the outcome *Victim Did Not Participate Pre-Disciplinary Process* was added to the report in 2017, and therefore; 2016 data is unavailable for this calculation).

Required Data

Postsecondary institutions are required to submit sexual assault data if they:

- Offer in-person courses on a campus located in Minnesota;
- Are eligible for state student financial aid, as defined in [Minn. Stat. § 136A.103](#)¹; and,

¹ <https://www.revisor.mn.gov/statutes/cite/136A.103>

- Have enrollment of 100 students or greater in the prior academic year.

Data reported by institutions must include, but are not limited to, the number of incidents of sexual assault reported to the institution in the previous calendar year in which:

- Either the complainant or respondent was a member of the campus community (e.g., employee or student) at the time of the incident;
- The incident occurred on the institution's campus (or on property owned/rented by the institution) or the incident occurred at an institutionally sponsored event.

Data Privacy

The Minnesota Office of Higher Education adheres to current federal and state data privacy laws and best practices to protect the privacy of individual students. Minn. Stat. § 135A.15, Subd. 6 requires that reports and data are prepared and published as summary data, as defined in Minn. Stat. § 13.02, Subd. 19 and are consistent with federal and state laws governing access to educational data and student privacy.

The Office's policy for complying with federal and state data privacy laws is to suppress student data in cells containing fewer than 10 students. In this report, cells with counts under 10 are suppressed, including zero values, where the number of incidents reported or the number of incidents investigated is greater than zero from which information could be inferred.

Sexual Assault Data

For this report, the Office collected data on the cases of sexual assault that occurred between January 1, 2022 to December 31, 2022 (calendar year 2022, report year 2023), as well as institutional responses and actions taken through September 30, 2023. In 2022, a total of 316 sexual assault incidences were reported to institutions (see table 1). Among these incidents, 79 (25%) were investigated and 43 cases (13.6%) were reported to law enforcement. About 21.8% of incidents were reported virtually. Among the investigated reports, 50.6% were referred for a disciplinary process at institutions. In 10 cases, a respondent(s) was or were found to be responsible for sexual assault. Less than 10 cases resulted in a disciplinary proceeding without resolution. Of those that closed without resolution, less than 10 cases were closed because the respondent withdrew from the institution. Moreover, less than 10 disciplinary processes were closed because the victim chose not to participate. In 49.4% of total incidents, a complainant chose not to participate in the institution's process prior to a disciplinary process beginning.

Data Trends

As shown in table 2, postsecondary institutions received a total of 2,947 reports of sexual assault incidents report years between 2016 and 2023. The number of reports of sexual assault incidents steadily increased until 2019. Between 2019 and 2022, the number decreased by 32.4%. In 2022, more incidents were reported as campuses reopened, but the number of incidents dropped slightly in 2023.

Between 2016-2023, 38% (1,120) of the 2,947 incidents of sexual assault reported to postsecondary institutions were investigated. Around 24.3% of total incidents were referred for a disciplinary process at an institution. In the report year 2023, and to the institutions' knowledge, 13.6% of sexual assault incidents reported to postsecondary institutions were also reported to law enforcement; this is in comparison to an average of 16.1% between the years 2016 and 2023.

The number one reason cited by institutions for an institutional investigation not being opened is that the complainant chose not to participate in the disciplinary process, as was the case for 41.2% (1,215) of the 2,947 incidents from report years 2017-2023. Complainants sometimes elect this route to receive supportive measures without undergoing a Title IX investigation. Note: the outcome *Victim Did Not Participate in Pre-Disciplinary Process* was added to the report in 2017, and therefore 2016 data is unavailable for this calculation.

As shown in Table 3, there were 418 cases out of a total of 2,947 incidents where a respondent(s) was found to be responsible for sexual violence between 2016-2023. Among cases that were referred for a disciplinary process, 80 cases were closed without resolution. Around 32.5% of those that closed without resolution were due to a respondent's withdrawal from the institution, and 71.3% of cases resulted in a closure because a victim chose not to participate in the process.

**Table 1: Statewide Summary of Incidents and Outcomes of Sexual Assault,
Report Year 2023 (Calendar Year 2022)**

Category	Category Definition	State Total
Incidents Reported to Institution	The number of incidents of sexual assault reported to the institution during the prior calendar year within the scope defined above (total incidents)	316
Investigated	Of incidents reported to the institution, the number that were investigated by the institution to determine whether the institution's policy was violated	79
Referred for Disciplinary Process	Of incidents that were investigated, the number that were referred for a disciplinary process at the institution	40
Reported to Law Enforcement	The number of total incidents reported to the institution in which the alleged victim chose to report to local or state law enforcement, to the extent that the institution is aware	43
Disciplinary Process Pending	The number for which a campus disciplinary process is pending, but has not reached a final resolution at the beginning of the data collection period (fall following the calendar year)	<10
Respondent Found Responsible	The number in which the respondent(s) was/were found responsible for sexual assault by the disciplinary process at the institution	10
Action Greater than a Warning	The number that resulted in any action by the institution greater than a warning issued to the respondent	20
Closed Without Resolution	The number that resulted in a disciplinary process at the institution that closed without resolution	<10
Closed Without Resolution - Respondent Withdrew	Of those that closed without resolution, the number that resulted in a disciplinary process at the institution that closed without resolution because the respondent withdrew from the institution	<10
Closed Without Resolution - Victim Did Not Participate	Of those that closed without resolution, the number that resulted in a disciplinary process at the institution that closed without resolution because the alleged victim chose not to participate in the process	<10
Victim Did Not Participate Pre-Disciplinary Process	The number in which the alleged victim chose not to participate in the institution's process prior to a disciplinary process beginning	156
Reports via Online Reporting System	The number of reports made through the online reporting system established in Minn. Stat. § 135A.15, subd. 5, excluding reports submitted anonymously	69

Table 2: Total Number of Incidents and Investigation Initiations of Sexual Assault by Report Year

Report Year	Incidents Reported to Institution	Reports via Online Reporting System	Investigated	Victim Did Not Participate Pre-Disciplinary Process*	Referred for Disciplinary Process	Reported to Law Enforcement
2016	294	28	156	Not Available	109	54
2017	400	42	172	141	131	82
2018	416	86	168	155	130	66
2019	491	81	170	230	94	77
2020	440	110	197	202	127	82
2021	258	53	71	152	38	28
2022	332	71	107	180	47	43
2023	316	69	79	156	40	43
Total	2,947	540	1,120	1,215	716	475

Please note that the report year includes data from the previous calendar year. For instance, the 2023 report includes incidents reported to the institution between January 1 and December 31, 2022 and the associated outcomes. These data do not denote when the incident itself occurred.

Table 3: Total Number of Incidents and Investigation Outcomes of Sexual Assault by Report Year

Report Year	Incidents Reported to Institution	Respondent Found Responsible	Action Greater than a Warning	Closed Without Resolution (CWR)	CWR – Respondent Withdrew	CWR – Victim Did Not Participate	Disciplinary Process Pending
2016	294	68	79	14	<10	28	<10
2017	400	89	101	<10	<10	<10	<10
2018	416	74	82	20	<10	12	<10
2019	491	53	61	15	<10	<10	<10
2020	440	84	86	<10	<10	<10	<10
2021	258	20	29	<10	<10	<10	<10
2022	332	20	31	<10	<10	<10	<10
2023	316	10	20	<10	<10	<10	<10
Total	2,947	418	489	80	26	57	21

Please note that the report year includes data from the previous calendar year. For instance, the 2023 report includes incidents reported to the institution between January 1 and December 31, 2022 and the associated outcomes. These data do not denote when the incident itself occurred.

Memorandum of Understanding with Law Enforcement

Each Sexual Assault Data Survey includes optional questions on notable topics. In 2023, the survey asked institutions about their collaboration with local law enforcement agencies and/or participation in a coordinated community response and protocol team, a provision in Minnesota Statute 135A.15 Subd.4(a). These questions allow OHE to understand strengths and challenges, as well as how to best assist institutions in fulfilling this statutory obligation. All institutions who completed the survey answered one or more of the optional questions:

- Does your institution have a Memorandum of Understanding (MOU) with the primary local law enforcement agency as per statute 135A.15 Subd. 4 (a)?
- When was the last update to the MOU (date needed)?
- Does your institution and primary local law enforcement participate in a Coordinated Community Response and Protocol team on campus or within the greater community?
- What barriers or challenges prevent you from entering into a Memorandum of Understanding with primary local law enforcement or participating in a coordinated community response team, on or off campus?

Of the 76 institutions, 59% reported establishing a MOU with primary local law enforcement. About 25% of the institutions were involved in a coordinated community response team. Nine institutions indicated involvement with neither law enforcement via the MOU nor a coordinated sexual assault community response protocol team.

Barriers to Pertaining to MOU

Even though the majority of postsecondary institutions reported positive working relationships with local/primary law enforcement, two primary barriers or challenges were repeatedly reported in this section. Institutional or law enforcement transition or vacancies in positions that typically negotiated an MOU or participated in the protocol team was a primary challenge or barrier mentioned. Moreover, the lack of consistent staff in these important roles led institutions to report they were unaware of this requirement. Despite no formal MOU or organized response team, three institutions reported positive working relationships with local/primary law enforcement.

Institutions that participated in a sexual assault community response protocol team reported the value of such a team but noted that due to the lack of human and financial resources, along with the time-intensive nature of a strong response team makes institutional participation increasingly more difficult. Institutions in a county with a large number of postsecondary institutions or an active sexual assault protocol team, such as Ramsey or Winona County, appreciated the collaborative interagency approach.
