About the Office of Higher Education

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency also serves as the state's clearinghouse for data, research and analysis on postsecondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program is the largest financial aid program administered by the Office of Higher Education, awarding more than \$224 million annually in need-based grants to Minnesota residents attending eligible colleges, universities and career schools in Minnesota. The agency oversees other state scholarship programs, tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Plan, licensing and early college awareness programs for youth.

About This Report

This is a legislative-mandated report. As requested by Minnesota Statutes, section 3.197, this report cost approximately \$4,674.39 to prepare, including staff time.

Executive Summary

The Study Abroad Health and Safety Report informs students and parents about significant health and safety incidents while studying abroad. Incidents, as reported on the Study Abroad Health and Safety Survey, are defined as deaths and hospitalizations that occurred during participation in a study abroad program. Minnesota legislation ([Minn. Stat. § 5.41¹](https://www.revisor.mn.gov/statutes/cite/5.41)) aims to strengthen student safety by asking Minnesota colleges and universities with study abroad programs to report the following information annually:

- Hospitalizations and deaths of students during program participation,
- Country, primary program host, and program type of each incident, and
- Whether the program complies with health and safety standards set by the nationally recognized Forum on Education Abroad² or a similar standard.

Key Takeaways

- Since 2015, 75,252 Minnesota students have participated in study abroad programs.
- During the 2022-2023 academic year, 29 Minnesota institutions offered study abroad programs.
- Among institutions that offered programs in 2022-2023, a total of 5,519 participants studied abroad.
- Since 2015, there have been 256 incidents resulting in hospitalizations and zero deaths of students participating in study abroad programs.
- Europe continues to be the most common destination for study abroad students. The United Kingdom (8,654 participants), Italy (6,267 participants), Spain (4,990 participants), and France (3,561 participants) are the most popular study abroad destinations among Minnesota students.
- Ecuador, Spain, and Italy have the most reported incidents involving hospitalization, with incident rates of 1.41% (21 incidents), 0.42% (21 incidents), and 0.27% (17 incidents) respectively.
- The University of Minnesota – Twin Cities has the largest number of students participating in study abroad programs (21,579 participants). The University of St. Thomas has the second-highest number of students participating in study abroad programs (7,706 participants).

Data Privacy

The Minnesota Office of Higher Education (OHE) adheres to current federal and state data privacy laws and best practices to protect the privacy of individual students. [Minnesota Statutes § 135A.15, Subdivision 6](#)³ requires that reports and data be prepared and published as summary data, as defined in [Minnesota Statutes § 13.02, Subdivision 19](#)⁴, and are consistent with federal and state laws governing access to educational data and student privacy.

OHE's policy to ensure data privacy is to suppress student data in cells containing fewer than ten students. This year's report introduces changes in student data suppression. Beginning with the 2021 report, OHE will not suppress participant counts if there are fewer than ten if the chart or table contains no student demographics or other potentially identifying information. However, the suppression of incident counts still occurs when participant counts are fewer than ten.

Introduction

The Study Abroad Health and Safety Report serves to inform students and parents about significant health and safety incidents occurring while studying abroad. Incidents, as reported on the Study Abroad Health and Safety Survey, are defined as deaths and hospitalizations that occurred during participation in a study abroad program. Minnesota legislation ([Minn. Stat. § 5.41⁵](#)) aims to strengthen student safety by asking Minnesota colleges and universities with study abroad programs to report annually on the hospitalizations and deaths of students during program participation, the country, primary program host, and program type of each incident and whether the program complied with health and safety standards set by the nationally recognized Forum on Education Abroad⁶ or a similar standard.

Study Abroad Institutions

During the 2022-2023 academic year, 29 Minnesota institutions offered study abroad programs. Among institutions that offered programs, a total of 5,519 participants studied abroad.

Due to the risks associated with COVID-19, many institutions in Minnesota paused their study abroad programs beginning in 2020. Even though the cases of COVID-19 dropped, the impact of the pandemic continued through the years 2021-2022. Compared with pre-pandemic time, fewer institutions offered study abroad programs. In 2023, many institutions resumed their study abroad programs. The number of students and institutions participating in study abroad has increased, but study abroad participation has still not reached pre-pandemic levels.

Study Abroad Health and Safety Standards

The nationally recognized Forum on Education Abroad⁷ offers a series of standards regarding study abroad health and safety best practices. Table 1 displays institutions' responses to a question on the annual survey asking whether or not their study abroad programs comply with these or similar standards. Institutions voluntarily reported their compliance with the following standards:

Standard 4.2.2. Collaborators shall discuss and clarify:

- Compatibility of missions and alignment of goals, objectives, and outcomes
- Determining the objectives of the partnership
- Establishing respective financial responsibilities
- Assigning functional roles or tasks to responsible parties

⁵ <https://www.revisor.mn.gov/statutes/cite/5.41>

⁶ <https://forumea.org/wp-content/uploads/2020/06/Standards-of-Good-Practice-for-Education-Abroad-6th-Edition-2020.pdf>

⁷ <https://forumea.org/wp-content/uploads/2020/06/Standards-of-Good-Practice-for-Education-Abroad-6th-Edition-2020.pdf>

- Establishing policies and procedures
- Managing health, safety, and security risks

Standard 5.1.5 Each organization shall have policies and procedures in place that govern personnel matters, conduct, and training, including, but not limited to:

- Participant conduct management
- Communication protocols
- Participant health, well-being, safety, and security
- Emergency management and response
- Partner relationships, roles, and responsibilities

Standard 5.1.6 Each organization shall have policies that govern student matters, including:

- Academic affairs: course availability, assessment, credit transfer, grade conversions, grade appeals, research ethics, and academic integrity
- Student affairs: student conduct matters, including, but not limited to, drug and alcohol use, mental health and well-being, culturally-sensitive behavior, sexual misconduct, travel, housing, disciplinary process, and appeal process
- Student finances: financial aid, scholarships, program cost disclosure, payment, cancellation, and reimbursement

Standard 5.1.7 Each organization shall have policies and procedures in place regarding security and risk management that prioritize the health, well-being, and safety of students and personnel, including, but not limited to:

- Risk assessment and monitoring for program locations and activities
- Tracking, responding to, and reporting critical incidents
- Written emergency plans and protocols
- Insurance coverage

Standard 5.2.4. Each organization shall provide risk management, preparedness, and emergency response measures for all programs and ensure insurance coverage is in place.

Standard 5.2.7. Responsible parties shall provide a safe environment that supports learning for all students.

Standard 6.1.8. Responsible parties shall communicate expectations for conduct and consequences of behaviors to participants.

Standard 6.1.10. Responsible parties shall provide students with information related to accessing physical, mental, and emotional health and well-being services.

Standard 6.1.11. Responsible parties shall prepare students to manage their safety by providing resources related to concerns including, but not limited to:

- Physical risks
- Behavior

- Property crime
- Liability and legal issues
- Sexual misconduct
- Identity-based discrimination
- Country-specific recommendations

Standard 6.2.7. Responsible parties shall support students in accessing physical, mental, and emotional health and well-being services.

Standard 6.2.8. Responsible parties shall support students in managing their safety by providing resources related to concerns, including:

- Physical risks
- Behavior
- Property crime
- Liability and legal issues
- Sexual misconduct
- Identity-based discrimination
- Communication, social media use, and freedom of expression
- Country-specific recommendations

Standard 6.3.4. Responsible parties shall provide resources related to student mental and physical well-being related to program participation.

Note: N/A indicates no response was received from the institution regarding compliance to the Forum on Education Abroad Study Abroad Health and Safety Standards. Additionally, these numbers do not include Gustavus Adolphus College due to a staff change, however the institution will submit two years of data before the next report.

Study Abroad Hosts

Study abroad program hosts are institutions or organizations other than the student's home institution responsible for the study abroad program. Program hosts are responsible for the administrative details of the study abroad program and any other aspect of the program that assures its success, including, but not limited to, student housing, local transportation, and emergency response and support. There are seven classifications of study abroad host:

1. a study abroad program taught by home university faculty or staff,
2. a study abroad program from a university overseas,
3. a third-party program host,
4. a study abroad program from another U.S. university,
5. a study abroad program from a consortium,
6. a study abroad program taken as an independent study, and
7. an unknown program host (for 2021 only).

Study abroad hosts are held to the same health and safety standards as institutions mentioned in the prior section. The majority of study abroad participants in Minnesota (62.9%) are participating in study abroad programs hosted by their home university faculty or staff.

Study Abroad Data

Since 2015, 75,252 Minnesota students have participated in study abroad programs. The number of students who studied abroad decreased significantly due to COVID-19 pandemic in 2020 and 2021. More students participated in study abroad programs in 2022 than the previous year. During the 2022-2023 academic year, the University of Minnesota – Twin Cities had the largest number of students participating in study abroad programs (21,579 participants). The University of St. Thomas has the second-highest number of students participating in study abroad programs (7,706 participants).

Table 2: Total Participants by School Year

School Year	Total Participants
2015	12,144
2016	11,569
2017	11,504
2018	11,795
2019	11,421
2020	6,947
2021	390
2022	3,963
2023	5,519
Grand Total	75,252

As seen in Table 3, Europe continues to be the most common destination for study abroad students. The United Kingdom (8,654 participants), Italy (6,267 participants), Spain (4,990 participants), and France (3,561 participants) are the most popular study abroad destinations among Minnesota students.

Table 3: Total Participants by Continents

Continents	Total Participants
Africa	4,136
Asia	12,116
Australia	4,091
Europe	42,266
North America	6,817
South America	5,312
Multiple Continents	95
Unknown ⁸	419
Grand Total	75,252

⁸ Listed as unknown countries due to discrepancies in institutional reporting.

Incident Detail

Between 2015 and 2023, 0.34% of participants (256 of 75,252 students) were involved in an incident while participating in a study abroad program. Over the same nine-year time period, the highest number of incidents reported by a single college is 45, resulting in an overall incident rate of 0.23%. There have been no deaths of Minnesota students participating in study abroad programs since data collection began in 2015.

Table 4: Total Incidents and Incident Rate by School Year

School Year	Total Incidents	Incident Rate
2015	38	0.31%
2016	36	0.31%
2017	15	0.13%
2018	36	0.31%
2019	43	0.37%
2020	10	0.14%
2021	0	0%
2022	54	1.36%
2023	24	0.43%
Grand Total	256	0.34%

Most of the incidents reported between 2015 and 2023 were hospitalizations. The most frequent known causes of hospitalization were gastrointestinal illnesses or bacterial/viral infections. Other hospitalizations with a known cause resulted from physical injury, rashes, animal bites, psychological illness, parasitic infections, urological conditions, respiratory illness, seizures, and dental conditions. The number of incidents increased from the previous academic year as more institutions offered study abroad programs.

Most study abroad students participated in programs hosted by their home university faculty or staff and have an incident rate of only 0.24%. All other program hosts have a combined incident rate of 0.51%.

Locations of Incidents

While incidents involving study abroad participants occur on every continent, the majority of incidents occurred in Europe (40%) and Asia (21%). Europe had the largest concentration of study abroad participants, with more than 42,000 participants in the last nine years. Lebanon and Cameroon have the most reported incidents involving hospitalization, with incident rates of 6.25% and 5.26%, respectively.

Table 5: Total Incident and Incident Rate by Continent

Continents	Incidents	Incident Rate	Percent of Total Incidents
Africa	17	0.41%	7%
Asia	54	0.45%	21%

Continents	Incidents	Incident Rate	Percent of Total Incidents
Australia	10	0.24%	4%
Europe	104	0.24%	40%
North America	33	0.48%	13%
South America	36	0.68%	14%
Multiple Continents	2	2.1%	1%
Unknown	0	0.00%	0%
Grand Total	256	0.34%	100%
