The Benefits of Higher Education

As you near high school graduation, do you find yourself wondering what’s next?

While it may be tempting to go straight into the workforce and begin earning an income, the world of work is changing and becoming increasingly competitive. Employers are looking for people with more skills than the people they are replacing.

You will - more than likely - need more education to land a job than what your parents needed when they started working. Going to college is a smart way to give yourself the best chance at landing a stable and well-paying job.

However, don’t think college is only about getting a four-year bachelor’s degree. Many good paying jobs require skills learned through short-term certificates that you earn at state colleges (two-year) or other private career schools.

Here are a few reasons to pursue higher education:

POTENTIAL
Often, many high school graduates are still discovering their career interests and searching for their “calling.” College brings you a world of information as you explore your interests, and helps you understand the issues that connect communities, the nation and the world. These new experiences can help you get to know yourself better and develop a greater sense of direction.

Additionally, for many students, it’s the first time you’ll live away from home. That independence allows you to try new things and make new discoveries that could lead to potential career paths after college.

OPPORTUNITY
One of the biggest advantages of going to college is that it creates a gateway to increased opportunity, and we’re not just talking about after graduation.

While enrolled, there will be opportunities for personal and professional growth. Many college students meet new people of different backgrounds, become a member of clubs, discover new passions, play sports, volunteer, and pick up an internship.

KNOWLEDGE
As you pursue your higher education, you’ll have the chance listen to lectures or learn hands-on skills from top experts in their fields. This stimulation encourages individuals to think critically and abstractly, to question concepts, and explore new ideas. This can lead to additional growth and development, as well as being able to make more informed decisions.

INCOME
According to the U.S. Department of Education, college graduates with a bachelor’s degree typically earn 67 percent more than those with only a high school diploma. Research shows that as a college certificate or degree holder, you can look forward to more promising job prospects after graduation. Not only do people with degrees generally have higher income, but they also often report greater job satisfaction and are less likely to be unemployed or underemployed than someone with a high school diploma.

Choosing a College

Higher education is a major investment – and may be one of the largest expenses you will face in your lifetime – so it’s important to do your research and find an institution and program that best fits with your personal and professional goals.

Although there is no magic formula for choosing a college, you can start by asking yourself some questions. For instance, would you prefer to attend a two-year college or four-year university? Do you have a preference of whether the institution is public or private?

PUBLIC TWO-YEAR COLLEGES
These institutions accept all students with a high school diploma or GED and offer a variety of educational options. You can earn a credential focusing on a specific occupation, or you can take up to the first two-years of courses to complete a bachelor’s degree upon transfer to a four-year university. Additionally, some colleges offer opportunities to participate in athletics, clubs, activities, and music or the arts.

PUBLIC FOUR-YEAR UNIVERSITIES
Minnesota State and the University of Minnesota offer a wide variety of undergraduate, graduate and professional degree programs. Most offer a wide range of athletics and intramural sports as well as programs in theater, music and the arts. Undergraduate on-campus housing is also available on most campuses.

PRIVATE FOR-PROFIT CAREER COLLEGES
They offer programs focusing on specific careers. Some colleges focus on one specific career, such as cosmetology schools, while others offer several career programs. Programs generally range from a few months to two years.

PRIVATE FOUR-YEAR COLLEGES
Most of private universities in Minnesota are liberal arts colleges, which emphasize broad knowledge in the arts, sciences, social sciences and humanities. Many are affiliated with a religious denomination. Some colleges only focus on students wishing to receive a bachelor’s degree, while others only offer graduate training or a combination of both.

Additionally, Minnesota’s postsecondary schools vary in size, student support services and extracurriculars. Here are other things to keep in mind as you search for a college that meets your needs.

Given the many reasons to further your education, we’re glad you’ve decided to review this guide to College Programs & Profiles.
GEOGRAPHIC LOCATION
Location, location, location. It’s often associated with buying and selling real estate, but it is just as important when choosing a college.

Minnesota residents can benefit from in-state tuition or the state’s tuition reciprocity program with neighboring states.

Some students choose to attend college near their hometown, allowing them to save money by living at home, as well as cut costs on travel, since car rides are usually less expensive than airfare.

You may also want to consider whether you prefer living in a rural area, city, or some place in between. Small college towns typically have an intimate sense of community, whereas schools in large cities can offer more access to internships with large companies and nonprofits.

SCHOOL SIZE
Minnesota colleges and universities come in all sizes, from small liberal arts colleges with fewer than 1,000 students to large universities that annually enroll more than 30,000 students.

Large universities can offer a wide variety of majors and courses, housing options and activities. Additionally, large schools typically maintain well-stocked libraries, state-of-the-art research facilities, and nationally recognized sports teams. Notably, introductory classes can be large, which some students find exciting while others find overwhelming.

On the other hand, small schools may not offer as many programs as large universities, but they often provide specialized degrees and lots of hands-on learning opportunities. Small colleges can also mean smaller class sizes, allowing you to easily access individualized support from faculty and staff.

OVERALL COST
Costs vary from school to school, and there are five main categories of expenses you’ll want to keep in mind: tuition and fees, room and board, books and supplies, personal expenses, and transportation.

It’s recommended that you look beyond published tuition prices, since what is listed may not be the actual amount you and your family pay after financial aid and institutional grants. Consider colleges that not only offer affordable tuition but also substantial financial aid packages, which may include grants, scholarships, loans and work-study opportunities.

OTHER THINGS TO CONSIDER INCLUDE:
• Campus environment and activities
• Available health and mental health services
• Accommodations for special needs
• Diversity of student population
• Faculty experience and expertise
• Length of time and location of classes
• Graduation statistics for that institution
• Academic reputation and credibility
• Tutoring and academic support services
• Transportation availability and cost
• Campus safety

With that information in mind, explore the College Programs & Profiles guide to discover what Minnesota colleges and universities have to offer and find programs that will help you meet your goals.

With two-year and four-year public and private institutions as well as accredited cosmetology and specialized trade schools, the profiles found in the beginning of the guide get right to the facts on tuition, fees, class sizes and required exams.

Our program grid, found in the back of the guide helps match your interests and field of study with the Minnesota institution that is best suited for you. It’s the easiest way to know what programs each school offers.

| Estimated Full-Year Cost | Tuition & Fees: $5,800  
|--------------------------|--------------------------|
| **Financial Aid** | Required Forms: Transcripts, High School Diploma or GED  
| **Title IV (FAFSA) School Code:** 005533  
| **School Scholarship Deadline:** March 1 (Primary application)  

### Rochester Community & Technical College

**Campus Profile**  
- **Campus Setting:** Urban  
- **Student/Faculty Ratio:** 17:1  
- **Average Class Size:** 26  

**Freshmen Admission Requirements**  
- **Admissions Selectivity:** Open  
- **Accepted Applications:** School & System (Paper) System (Online)  
- **Application Fee:** None  
- **Application Deadline:** Rolling Admissions, two weeks before start of Fall and one week before Spring-absolute  

| Estimated Full-Year Cost | Tuition & Fees: $5,754  
|--------------------------|--------------------------|
| **Financial Aid** | Required Forms: Transcripts  
| **Title IV (FAFSA) School Code:** 002373  
| **School Scholarship Deadline:** SCTCC.foundant/scholarships  

### St. Cloud Technical & Community College

**Campus Profile**  
- **Campus Setting:** Suburban  
- **Student/Faculty Ratio:** 24:1  
- **Average Class Size:** 24  

**Freshmen Admission Requirements**  
- **Admissions Selectivity:** Open  
- **Accepted Applications:** School & System (Paper) School & System (Online)  
- **Application Fee:** $20  
- **Application Deadline:** Rolling Admissions, two weeks prior to the start of any semester  

| Estimated Full-Year Cost | Tuition & Fees: $5,537  
|--------------------------|--------------------------|
| **Financial Aid** | Required Forms: Transcripts  
| **Title IV (FAFSA) School Code:** 005534  
| **School Scholarship Deadline:** June 28

- [Green & Sustainable Construction Technology](#)
### 2-year Degree Programs

Not all programs are listed on this chart.

#### ARCHITECTURE & CONSTRUCTION (CONTINUED)
- Heating, Ventilation, Air Conditioning & Refrigeration
- Heavy Equipment Operation
- Interior Design
- Inverter
- Plumbing / Pipelining

#### BUSINESS & MANAGEMENT
- Accounting
- Administration Assistant & Support
- Administration Management Technology
- Business
- Business Administration / Management
- Business Logistics Management
- Contemporary Business Practice
- Customer Service / Call Center
- Entrepreneurship
- Executive Assistant
- Fashion Marketing & Management
- Finance Management
- Financial & Credit Service Administration
- Hotel, Restaurant & Casino Management
- Human-Resources Management
- Industry & Technology Business
- Insurance
- International Business
- Management
- Marketing & Sales
- Meeting & Event Management
- Music Industry Management / Business
- Office Management
- Public-Wellness Financial Worker
- Quality Improvement
- Real-Estate / Property Management
- Retail Merchandising
- Small Business Management
- Sports Facility Management
- Supervision & Leadership
- Supervisory Management
- Sustainable Tourism / Ecotourism
- Travel/Planner / Tourism

#### EDUCATION
- Early Childhood Education
- Education
- Educational Assistant / Paraprofessional
- Instructional Technology
- Pre-Teacher Education
- Pre-Teacher Education - Elementary
### 2-year Degree Programs

Not all programs are listed on this chart.

#### EDUCATION (CONTINUED)

- Pre-Teacher Education - Music
- Pre-Teacher Education - Physical Education
- Pre-Teacher Education - Physical/Earth Science
- Pre-Teacher Education - Special Education

#### ENERGY TECHNOLOGIES & NATURAL RESOURCES

- Alternative / Renewable Energy Technology
- Electric Utility Technology
- Electrical Distribution Technology
- Energy Process Technology
- Energy Services Technology
- Environmental & Earth Science
- Fisheries & Wildlife Management
- Logging Operator
- Natural Resource Technology
- Public Recreation
- Power Generation & Distribution
- Powerline Technology
- Solar Photovoltaic Contractor Technology
- Solar Thermal Contractor Technology
- Urban Forestry Technician
- Water Environment Technologies
- Water Quality Science
- Watershed Science
- Wilderness Management / Wildland Firefighter
- Wind Energy Technology
- Wood Science & Wood Products

#### ENGINEERING & ENGINEERING TECHNOLOGIES

- Applied Engineering Technology
- Automated Control Systems
- Biomedical Equipment Technology
- Calibration Engineering
- Drafting - Electrical & Mechanical
- Electrical & Industrial Automation Engineering
- Electronics Technology & Automated Systems
- Engineering Technology - Civil & Surveying
- Engineering Technology - Electrical
- Engineering Technology - General
- Fluid Power Technology - Hydraulics/pneumatics
- Geographic Information Systems (GIS)
- Mechatronics Technology
- Nanotechnology
- Nondestructive Testing
- Pre-Engineering
- Robotics Technology & Automated Systems
